EXPLANATORY MATERIAL:

5/04/04 Mr & Mrs Toler work in to discuss the 'Disallowed' Recommendation.
I Attempted to explain that this right predates the Garden
Creek Decree, the water right (claim) was not part of that
Action and that's why it was Disallowed - Mr. Toler's Basis
or claim is predicated on an Abstract with a posteo
notice - But Mr Toler has 4 other Decree Rts from
that Decree of Priorities of 1904, 1904, 1896 and, 1887.

Yes, change 4079 and provide us with an amended director's report to attach to an SF5 in underline/strikeout format. We will route for signatures etc.

We will just have to set 29-4079 for trial, I guess. I'm sure the court will want a report from us We'll cross that bridge in June.

I think we've agreed on 29-04079. I am going to increase Q to 1"/ac (he's the only user from the spring and no injury exists, even though the flow isn't there due to poor water years).

29-04080, is not going to settle and I don't think he understands his responsibilities.....

I really believe the entire issue here is that he just don't understand. He has 4 other decreed rights for the same lands dating to 1904 (2), 1896, and 1887. Availability of water is the issue and that's the way it is when your on the end of the ditch. The watermaster needs to be more proactive. He insists that the 4080 is a 1921 right from the springs even though he claimed it as 1895 from the creek. 4079, is claimed as 1921 from springs and so recommended.

guidance? should I do the changes of Q?

MEMORANDUM

DATE: August 25, 2003

FROM: Ernie Carlsen

TO: 29-4079 and 29-4080

RE: Consultation with Maurice Toler, claimant

Maurice scheduled an appointment to discuss with me issues he had about the recommendations for the above referenced numbers. After reviewing his irrigation practices it appears the recommendation for the point of diversion, quantity and place of use under 29-4079 are incorrect. According to Maurice this right historically irrigated approximately 36 acres on the east side of Garden Creek from a diversion in the SENW Section 11. This matter will easily resolved once he files an objection to the recommendation. The more difficult issue is 29-4080. This right was disallowed because he claimed a priority date that predates some of the rights on Garden Creek decreed in the case of Garden Creek Irrigation v Wolverton in October 1906. His basis for this claim is a posted notice by William Marley going back to 1895. He indicated water diverted under this claim consists of water rising in the channel downstream from the headings for Garden Creek Irrigation. Though this water is diverted separate from rights conveyed by Garden Creek Irrigation, I explained to Mr. Toler, in my opinion, we could not recommend a priority date earlier than October 1906 since the land described by posted notice is part of the decreed place of use for rights 29-376 and 29-377. Mr. Toler wanted to know why the State was taking water away from the water users? At that point I suggested we simply agreed to disagree on this issue and I provided him with another objection form.

RE: EVIDENCE OF PRIORITY 29-04080

Dear Claimant (s):

The Idaho Department of Water Resources is nearing the end of water rights review in Basin 29. The Notice(s) of Claim identified with the number shown above has been filed in the Snake River Basin Adjudication (SRBA). The Notice of Claim indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Claim. The date the water was first put to beneficial use, known as the priority date, has not been confirmed by License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

29-04080 shows a claimed priority date of July 8, 1895. This claim will require some type of documentation supporting the claimed priority date. I have attached the first page of the claim as a reference for your use.

In addition, I will be contacting you in the near future for the purpose of scheduling an on-site visit of each of your SRBA claims.

It is important that each element of the Notice of Claim be verified. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice of Claim and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to

read the entire pamphlet, I direct your attention to the two sections entitled **“What Kind of Evidence is Required”** and **“Some Examples of Documents Which May Be Evidence of the Priority Date”**.

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other elements of the Notice of Claim have been or soon will be conducted by Department personnel.

.....
The Department will not recommend the Notice of Claim be decreed by the court if evidence of a priority date is not submitted. The Notice of Claim will be disallowed.
.....

Please submit the documentation supporting the priority date **within 30 days of the date of this letter, referencing all documents with the corresponding Claim number.** If you have any questions not covered by this letter or the enclosed pamphlet, please feel free to contact this office.

Respectfully submitted,

Allen B. Ruberry

NOTICE OF WATER APPROPRIATION.

State of Idaho,
County of Bannock,) ss.

Claim # A29 04080

TO ALL CONCERNED:-

Notice is hereby given:- That William Marley of Robin of the County of Bannock of the State of Idaho, hereby appropriates and claims the use of the surplus waters of Garden Creek here flowing to the amount, or extent, of one and one-half (1-1/2) cubic feet per second of time, to be diverted from said stream at a point near the south-east corner of the north-west quarter of the North-west quarter of Section eleven(11) Township ten (10) South, Range thirty-six (36) East, where a copy of this notice is posted. *SE 1/4 NW 1/4 Sec 11*

It is intended to use said waters, and the same have been used for the period of four (4) years last passed, for agricultural and domestic purposes upon the west half (1/2) of the southwest quarter (1/4) and the southwest quarter (1/4) of the northwest quarter (1/4) of Section two (2), Township ten (10) South, Range thirty-six (36) East of the Boise Meridian in Idaho, being the lands comprised in Desert Entry #2039, made at the District Land Office at Blackfoot, Idaho. *W 2 1/2 SW 1/4 Sec 2 10/36*

It is intended to divert said waters by means of a dam and ditch; said dam being about three (3) feet high, seven (7) feet through at the bottom, four (4) feet through at the top, and about ten (10) feet in length, and said ditch being about four (4) feet wide and one and one-half (1-1/2) feet deep. The length of said ditch is about three-fourths (3/4) of a mile, and the general course thereof is northeasterly from the point of diversion.

It is intended to have the works for the diversion and use of said waters as aforesaid completed within three years *OK 4*

from the date of this notice, the same being now in course of construction, and having been used for about four years last passed.

In Witness Whereof, the said claimant has hereunto set his hand and seal this 8th day of July, A. D. 1899.

William Marley 1895
Claimant.

State of Idaho,)
County of Bannock,) ss.

William Marley, being first duly sworn according to law, deposes and says that he is the claimant of the water right mentioned in the foregoing notice of appropriation, and whose name is subscribed thereto; that the statements in said notice contained are true and that the original notice of which the foregoing is a true copy was posted in a conspicuous place at the point of diversion therein described at 45 minutes past 10 o'clock A.
