REPLY

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS:

Water right number: 23-19D
STEPHEN J MC GRATH
PO BOX 50731
IDAHO FALLS ID 83405-0731
Telephone Number: (208)524-0731

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

The total combined diversion rate is less than the total of the component water rights resulting in a net loss of decreed water rights.

2. Describe the changes you wish to make in the proposed recommendation:

Increase total combined diversion rate to 1.0 cfs for Right Nos.:

23-00019D 23-0047D

23-00020B

and Increase total combined diversion rate to 2.0 cfs

when above rights are used in conjunction with Right No. 23-00093B.

3. Give a brief explanation as to why you disagree with these portions:

Out water rights are decreed rights by previous Idaho court decrees. The proposed conditions result in a taking without compensation by the State of Idaho, which is prohibited by both the United States Constitution and the Constitution of the State of Idaho.

 I AGREE with this proposed recommendation: no changes need to be made.

 DEPARTMENT OF RECLAMATION
 CERTIFICATE OF WATER RIGHT
 Transferred Right No. 363

This is to certify that Samuel J. Weeks, of Swan Valley, County of Bonneville, State of Idaho, has a right to the use of the waters of Rainey Creek, for irrigation and domestic purposes, and that said right has been confirmed by decree of the District Court of the Sixth Judicial District of the State of Idaho, in and for the County of Bonneville, in the case of Rexburg Irrigation Company, et al, plaintiffs, vs. Teton Irrigation Canal Company, et al, defendants, J. M. Stevens, District Judge, wherein 3.2 second feet of the waters of Rainey Creek, in Water District No. 36, were decreed to Alfred Joseph Bernard for the irrigation of the SE $\frac{1}{4}$ of SE $\frac{1}{4}$, Section 6; NE $\frac{1}{4}$ of NE $\frac{1}{4}$, Section 7; S $\frac{1}{4}$ of SW $\frac{1}{4}$, Section 8 and the N $\frac{1}{4}$ of NW $\frac{1}{4}$, Section 8, Township 1 North, Range 44 East of Boise Meridian, said right bearing date of priority of April 15, 1869; that said right has been entered in the records of the Department of Reclamation of the State of Idaho, at Boise, in book 3 of decrees, at page 450; that, upon the application of Samuel J. Weeks for a transfer of water right, made before the Commissioner of Reclamation of the State of Idaho, and the said application having been granted, the right to the use of 1.6 second feet of the waters of Rainey Creek is hereby abandoned upon the lands above described and the lands to be irrigated under such right and to which the water right hereby confirmed shall by this certificate become appurtenant, for irrigation and domestic purposes, are shown

MEMORANDUM

TO: FILES 23-00019A/00020/00047B/00093

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER 4851

DATE: March 17, 1998

Transfer 4851 changes the point of diversion under a portion of Rights 23-00019A (C & D), 23-00020 (A & B), 23-00047B (C & D), and 23-00093 (A & B), splitting each right.

Review of the recorded rights show that the transfer also represents a change in place of use to the historically irrigated land. The place of use has been modified over the years through unrecorded transfer to include the 45 acres under the proposed place of use. No physical change occurs.

The applicant is the new owner of this portion of the ranch and wants to add two separate points of diversion; a diversion ditch to serve the west side of the property and a pump to serve the east side of the property. The creek bisects the property in a north south direction.

Recommended conditions include watermaster control, measuring devices and lockable controlling works, irrigation overlap, multiple points of diversion, combined right conditions, and standard transfer conditions.

TO: FILES 23-00019A/00020/00047B/00093

FROM: PAM SKAGGS²⁸/STATE OFFICE

SUBJECT: TRANSFER 4851

DATE: March 17, 1998

=====

Transfer 4851 changes the point of diversion under a portion of Rights 23-00019A (C & D), 23-00020 (A & B), 23-00047B (C & D), and 23-00093 (A & B), splitting each right.

Review of the recorded rights show that the transfer also represents a change in place of use to the historically irrigated land. The place of use has been modified over the years through unrecorded transfer to include the 45 acres under the proposed place of use. No physical change occurs.

The applicant is the new owner of this portion of the ranch and wants to add two separate points of diversion; a diversion ditch to serve the west side of the property and a pump to serve the east side of the property. The creek bisects the property in a north south direction.

Recommended conditions include watermaster control, measuring devices and lockable controlling works, irrigation overlap, multiple points of diversion, combined right conditions, and standard transfer conditions.

Dear Mr. Carlson:

I appreciate your time in meeting with me Monday to discuss the water rights granted Stephen McGrath when he purchased the 80 acres from me.

The materials you gave me Monday were an application by McGrath for new diversion points for his water rights from Rainey Creek. It appears that on August 8, 1996, he requested two diversion points on his property. We are very interested in the status of that application. You did not give me anything related to how you calculated the cfs you transferred to him.

Several questions remain about the transfer of water rights by the Department of Water Resources to McGrath with his purchase. I ask some of these questions Monday and they remain unanswered:

1.) How can you grant water rights directly to Stephen McGrath without my concurrence, given that the Contract of Sale for the 80 acres, between McGrath and me, specifically authorized me only to arrange to convey the transfer of the water rights. There appears to be a significant ethical issue here. The Contract of Sale was drafted by McGrath's attorney and he is an attorney and you and he were acting in violation of that agreement. You stated you saw the Contract of Sale, although you could not find a copy.

2.) On what basis do you determine how many cfs are assigned to an irrigateable acre of land.

3.) On what basis did you determine how many cfs to transfer from me to McGrath. It appears you may have granted him from two to four times the amount warranted.

He has approximately 20 acres of irrigateable land in the 80 acres, the balance is a large slew and other pasture land which was never accessible to the irrigation ditches and never irrigated. McGrath's application for new diversion points seems to suggest he has 45 acres of irrigateable land. If that was your basis you are incorrect. It appears you cooperated with McGrath who has never irrigated the land, and has no knowledge of the number of irrigateable acres in an obvious breach of a carefully negotiated Contract of Sale.

4.) What is the process to recind water rights inappropriately given away. I should have a right to retain my water rights and reclaim them without the necessity of filing a legal action against you personally and the Department of Water Resources. However, I

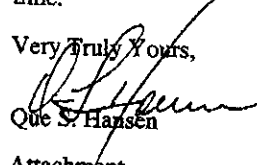

Page 2 of 2
Carlson

have obtained legal counsel and we are prepared to resolve this matter in court if we cannot get the cooperation of you and the Department of Water Resources.

It is my understanding you have a close and long term relationship with McGrath which may affect your decisions in this matter.

I will appreciate being contacted by the Department of Water Resources in a reasonable time.

Very Truly Yours,

Que S. Hansen

SWAN VALLEY ID 83449

Mr. Hansen:

I have reviewed your May 13, 1998 fax letter to Ron Carlson referencing transfer application #4851 filed by Steve McGrath.

For your information I have included a copy of claim A23-00020 which is one of the rights affected by this transfer, you will note that this claim was originally filed by Archie McKay on 9/26/1989. The land list shows 215 acres irrigated of which 45 acres are located in the S1/2 NW1/4 Sect 8 T1N R44E.

On June 15, 1992, the department received a change of ownership for claims A23-00020, A23-00019A, A23-00093 and A23-00047B signed by Mr. McKay and yourself. The data base was changed to show you as the current owner. You also did not make any change or reduction in the 215 acres claimed.

On June 3, 1996, Steve McGrath filed a change of ownership form with the department for a pro-rated share of the claims listed above and provided evidence that he owned the 45 acres listed on your claim in the S1/2 NW1/4 Sect 8 T1N R44E. The claims were then split based on the cfs per acre listed on each claim multiplied by the acres owned by each party.

Example:

1. Claim A23-00020 has $\frac{1.60 \text{ cfs}}{215 \text{ acres}} = 0.00074 \text{ cfs/acre}$
2. Mr. McGrath owns 45 acres of claim A23-00020.
 $45 \text{ acres} \times 0.00074 \text{ cfs/acre} = 0.33 \text{ cfs}$

Mr. McGrath also filed transfer #4851 to add a point of diversion to his portion (45 acres) of the 215 acre farm and the four rights listed as being appurtenant to that place of use. The pro-rations were calculated as the example above demonstrates. In Idaho an irrigation water right is appurtenant to the acreage listed as its place of use. Mr. McGrath had demonstrated he owned a portion of that place of use and was entitled to file a transfer

application.

Page 2
Que S Hansen

Mr. McGrath worked solely through me with his transfer filing and the application was advertised as required by Idaho Code. No protests were filed and the application was sent to the State Office in Boise on August 9, 1996.

I have also enclosed a copy of the warranty deed supplied by Mr. McGrath. If you have a contract of sale that has restrictive elements in it that should be known then I would need a copy of said signed contract.

I will need any contractual papers submitted to me within 7 days of receipt of this letter.

If you have additional questions, please let me know.

Sincerely,

Dear Mr. Jones:

I received your letter of May 15, 1998. I appreciate your timely response. I want to state I did send a letter of protest to Mr. Carlson on the day I received notice of any action being taken on my water rights. In that letter I protested acting contrary to the contract of sale, among other things (attached is a copy of my letter of protest).

I conclude the following from the letter and information you sent to me:

- 1.) Steven McGrath presented you with a warranty deed to some property he purchased from me.
- 2.) Based on receipt of the "deed" you identified the water rights associated with the 215 acres McGrath's property was a part of and granted him a pro-rata share of the cfs based on the acres purchase as related to the total of the larger piece.
- 3.) You granted the cfs without regard to:
 - a.) the number of acres that were irrigatable.
 - b.) any restrictions in the purchase arrangement.

I question the above process and have several questions which remain unanswered about your granting water rights to McGrath with his purchase.

- a.) Is it consistent with Department of Water Resources policies to grant water rights directly to a new property owner presenting a warranty deed, from a third party, without the concurrence or notification of the contemplated change to the original owner. Further is it consistent with your policies to grant the water rights contrary to a Contract of Sale specifically authorizing only the seller to arrange conveyance of the water rights.

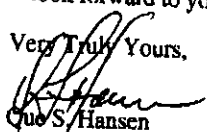

The warranty deed McGrath presented to you grants 2.0 cfs the McGrath while the contract of sale grants only .20 cfs. In addition, it is my belief that if you used Department of Water Resources established methods of relating cfs to the number of acres under irrigation you would have granted McGrath significantly less. As stated in the attached letter sent to Mr. Carlson in 1996, a copy of the contract of Sale was forwarded to your offices then. Do you need another copy.

Page 2 of 2
Jones
May 21, 1998

- b.) Do you grant water rights for acreage which has never been irrigated before.
- c.) In your letter you show an example of granting McGrath .33 cfs, when in fact you granted 1.98 cfs. Can you explain this.
- d.) You granted McGrath water rights based on 45 acres while he has less than 20 acres that have ever been irrigated. Why did you not grant him cfs for 80 acres, that is the amount he purchased.
- e.) Again what is the process to rescind water rights inappropriately given away. I request an answer to this question. I need to know whether to proceed with legal representation. Do you have a process within your department to overturn incorrect actions.

I look forward to your reply.

Very Truly Yours,

Gus S. Hansen

Dear Dave:

As per our conversation today, I'm attaching a copy of the November 22, 1996, letter received from your office reflecting a change in water ownership for certain water rights as requested by Stephen J. McGrath. As per your comment, apparently Mr. McGrath stated to the representatives in your office that he had an agreement with me to transfer water rights as part of a sale of property to him by me.

I want to restate that we have no agreement in place to transfer any water rights to him.

And because of that, this change in ownership documented in your November 22, 1996, letter should be voided.

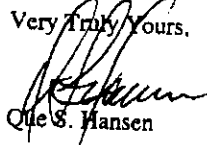

An additional problem with the water rights, as reflected in your letter, is that such a transfer, if it had been agreed to, would be different than that reflected in the change requested by Mr. McGrath. We have a mutual agreement that he has approximately 10% of the irrigatable property, not the 25-26% reflected in the change of ownership report. He has been paying approximately 10% of the electricity and other irrigating costs. I have attached a copy of the only agreement between Mr. McGrath and myself.

If you need any additional information, I will be happy to provide it for you.

My corrected address: Que S. Hansen
9196 Brushboro Drive

I also want to note that the copy of the New Property Ownership Notice of Change of Water Right Ownership, sent to me, has an incorrect address for me and does not have my signature on it.

Very Truly Yours,

Re: Rainey Creek Relocation

Dear Mr. Verner:

I understand that my good neighbor Que Hansen is attempting to relocate a portion of Rainey Creek. While I wish Mr. Hansen all of the success in the world in his plans for a new subdivision, I must be mindful of the possible effect of construction activities upon my adjoining properties.

SCA As a downstream appropriator, I have two concerns. The first of these is that the delivery of water to my property not be diminished by virtue of channel loss associated with the creation of a new stream bed. Secondly, I am concerned that utilization of a new stream bed not increase the sediment load on our downstream properties.

SCA Would you please be so kind as to confirm that your department will take any steps deemed necessary to assure that we will experience neither increased channel loss nor increased sediment deposits as a result of the proposed project before granting any further permits?

HWJ I also enclose a copy of page one of the contract with Mr. Hansen by which I acquired the subject properties. Please note that Mr. Hansen contracted to convey 2.0 cfs of Upper Rainey Creek water. I note the transfer only mentions 1.98 cfs. Please advise as to what will be necessary to correct this shortage.

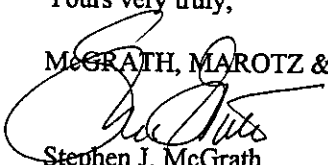

Can you answer this?

Subj: McGrath Transfer Update

Ty. 4851

Today I received from Norm a memo outlining actions that should be taken.
Below is highlights of his requested action.

1. Get a copy of contract of sale from Mr. Hanson if we do not have one.
2. Respond to Mr. Hansen's second letter indicating that IDWR must consider the four criteria of Section 42-222 even if the transfer is not protested and also consider whether the applicant has a right to the water sought to be transferred. The department wants to have all relevant information as the decision is made, so will appreciate receiving any information he has on these issues.
3. Assure Mr. Hansen the records of the department are open, and he is free to inspect the information now in the water right file and activity related to the processing of the McGrath's transfer.
4. Clarify that IDWR is not "granting" water rights through the present transfer process; only changing existing rights in accordance with an application filed under state law.
5. Give Mr. Hansen two weeks to provide any information he wants, explain that the department will issue a preliminary order after that.
6. Send a copy to McGrath and to Eastern

I will be drafting the letter for Norm's approval.

Would you please check with Dave Carlson to see if a copy of the contract of sale has been filed with us?

Also if you have any other information or if SRBA folks have any information relating to items identified above please let me know right away.

INFORMATION YOU WILL NEED TO ASSEMBLE TO PREPARE YOUR TRANSFER APPLICATION:

The information marked below should be collected in your efforts to complete the transfer process. IDWR can help identify the appropriate types of information required for your proposed changes.

- ☐ Written description of the type of change proposed.
- ☐ System description before and after the proposed change showing the point of diversion, place of use and any water conveyances such as ditches and pipelines.
- ☒ Topographic map showing the point of diversion and place of use after the proposed change (can be combined with the above diagram where useful).
- ☒ Proof of ownership of the right (warranty deed, tax notice, etc.) that identifies the owner and lists the land to which the right is appurtenant (current place of use).
- ☐ Notarized consent of the water right owner, if other than the applicant, consenting to the proposed change.
- ☐ Notarized consent of any holder of a lien, deed of trust, mortgage, contract or any other encumbrance on the property at the present place of use for the water right being changed.
- ☐ Comparison between the water right as recorded and the SRBA claim (where applicable) as recorded, including an explanation of any differences found (see "IDWR Information Sheet - Evidence of Date of Change" and/or IDWR brochure "Evidence of Priority")
- ☐ For changes to a portion of a water right ("water right splits"), identify the owner of the remaining portion of the right, and explain how water use will continue of the remaining place of use.
- ☐ For changes in nature of use of a water right (such as irrigation use to fish propagation), define the water use requirements for the new use, including necessary rate of flow and consumptive annual volume of water required by the proposed use.
- ☒ Document the extent of water use of the existing water right within the **previous five-year period**. This information can include, but is not limited to:
 - ☐ Dated photo-copies of aerial photographs showing the existing place of use of the water right. These can be obtained from the CFSA (formerly ASCS). 1987 air photo
 - ☐ Power records for any pumps.
 - ☐ Reports from other government agencies (NRCS, BLM, USFS, etc.).
 - ☐ Reports from qualified consultants.
 - ☐ Supporting affidavits from previous owners, operators, neighbors and/or other parties who are familiar with the historical use of the water being transferred.

Be sure to include the source and date of any submitted materials.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.
