Ruberry, Allen

From: Ruberry, Allen
Sent: Tuesday, March 16, 2004 12:39 PM
To: 'huskey103@cs.com'
Subject: Notice of error reply

Randy, thank you for your response to the water right recommendation. I have reviewed your comments and mapping. There are a few issues to be aware of:

1. Chris Stoner has been forwarded a Notice of Change of Water Right Ownership. However, he has failed to respond, that is why the water right recommendation was sent to you; you are the claiming owner absent his response. There has been some discussion with Mr. Stoner that the water right will be sold as soon as the Partial Decree is issued since the water right is undeliverable to the place of use recommended (shown in yellow on the map sent).

2. The place of use you outline on your reply and claim map will not work since a water right can not be appurtenant to a parking lot or drive way, such as is the case at the filling station. That portion appurtenant to the RV park/cabin area and lawns MIGHT work but that only uses a small portion of the claimed portion.

3. The recommendation is based on ownership of irrigated ground that is shown to be held by Mr. Stoner. This information comes from the Bonneville County Assessors Office. In the effort to preserve the water right portion claimed the place of use was adjusted to that irrigated acreage.

4. Although I cannot find forfeiture of the water right due to the claim filing date there is an opportunity for someone else to file an objection alleging forfeiture due to non-delivery from 1986. Discussions with a couple locals indicates the ditch was not used since 1986. Idaho code 42-222(2) find forfeiture if the right has not been used in a "term of five years". To date, the ditch is obliterated in several places, the point of diversion off Palisades Creek is closed, apparently there are buildings built over the historic ditch trace and no effort has been made by users to preserve the right. Some of the claims filed on the Palisades Creek right(s) have been disallowed due to the non-use issue of forfeiture (having to do with the claim filing date as mentioned above).

Thanks for the response: I will look forward to your reply regarding the above issues. And, if there are additional questions and or concerns please feel to call (208) 525-7161 or e-mail.

Respectfully,

Al Ruberry

Dear Idaho Department of Water Resources,

I am sending you a accurate correction of the place of use outlined in the aerial photo sent with your notice of correction 01/29/2004. Being in Arizona for the winter the legal description looks accurate. Please update your files with my outlined copy aerial reprint. Please notice that my mailing address has changed on this letter.

Sincerely,

Randy T Huskey

MEMORANDUM

11 July 2003

To: Files; 23-55 A/B/C/D/E/F, 23-10271

From: A. Ruberry

Subject: Split portions of SRBA claims, as above

On April 22, 2003, a field exam was conducted by A. Ruberry, IWDR. The claimed Point of Diversion SWSWSE Sec. 26, T1N, R44E, was GPD'd and photographed. This claimed Point of Diversion has no structure to control any type of diversion off Palisades Creek; it is in-fact, filled with gravel and about 150' +/- down-ditch (remnant) from the claimed Point of Diversion is also filled and heavily overgrown with vegetation (see photographs).

In addition, within the SWNWNWNE of Sec. 35, there is a culvert in the ditch remnant that is crossed by a roadway. A short distance further down ditch the ditch is filled-in.

It is obvious this ditch has not been used due to the heavy growth of vegetation and lack of any type of maintenance. According to local residents, Chris Stoner and Jay Weeks, this ditch has not been used in 10 years (Jay) and 17 years (Chris). Thus, according to Mr. Stoner's statement abandonment of the ditch began in 1986.

Portions of the 23-00055 water right, as listed above, will be recommended as Disallowed pursuant to §42-222 (2) IC. Lands claimed under this water right are not a subject of the Conservation Reserve Program (CRP), as addressed under this statute. 23-00055 originated as a Decreed water right under the Rexburg Irrig. Co. vs Teton Irrig. Co., 1910, as 3.3 cfs from Palisades Creek, 8/20/1890. See attached split history attached; 1.92 cfs of this right is not accounted and unclaimed.

*This claim recommended - claim filed 1988, cannot
find confirmation of abandonment. 1986-1988.*

*1/9/04 MAILED c/o after TALKING w/ Chris Stoner.
He'll get on it.*

*1/29/04 NO RESPONSE TO REQUEST FOR CHANGE OF OWNERSHIP
RECOMMEND AS CLAIMED TO RAY HUSKY -*
