	) IDAHO'S OBJECTION and
	) SPECIAL MASTER REPORT

Findings of Fact

The Director of the Idaho Department of Water Resources filed his *Director's Report for Domestic and Stockwater, Reporting Area 12 (IDWR Basin 47)* on August 14, 1998. The Director recommended claim 47-16062 to the United States of America, Department of Interior, Bureau of Land Management, Idaho State Office, 1387 S. Vinnell Way, Boise, Idaho, 83709-1657, for .02 cfs from a spring in Twin Falls County for year-'round stockwater use with a priority date of January 1, 1875, based on beneficial use. The Director also noted under priority date: "4/17/1926 Claimed under federal reserved water right. This water right is also claimed based on federal law with an April 17, 1926, date of priority pursuant to an Executive Order signed the same date and known as Public Reserve 107."

On February 10, 1999, the State of Idaho filed an *Objection* to priority date: "If this water right exists, the State Law based portion of this right should have a priority date no earlier than June 28, 1934." The State also alleged that the water right should not exist.

On May 12, 2003, the United States and the State filed a *Joint Motion to Vacate Hearing on Dispositive Motions and to Proceed with Hearing Under I.C. § 42-1411(A)* in multiple subcases, including 47-16062. On February 24, 2004, the State filed its *Report on Status of Idaho's Objections for Selected Subcases in Basins 35 and 47*. For subcase 47-16062, the *Report* noted: "This water right needs to be decreed as a state water right with a priority date of 6/28/1934. The United States reacquired this land on or about February 15, 1957."

On March 12, 2004, the United States filed an *Affidavit of Eric V. Mayes* in 34 subcases, including subcase 47-16062. Mr. Mayes, a natural resource specialist with the USDI / BLM in its Burley field office, stated the following for subcase 47-16062:

United States Homestead Entry Patent, number 1041748, was issued to Raymond A. Dahlquist on November 7, 1930, pursuant to the Act of May 20, 1862. Subsequently, the United States reacquired this land pursuant to Warranty Deed, number 1176574, from Dan J. Cavanagh on February 15, 1957. The United States assigned Serial Case Number I-04894 to this action.

...

The Point of Diversion is described in IDWR's Director's Report recommendation/abstract as SENENE, S06, T. 15S, R. 17E. This parcel is actually a government surveyed lot and therefore would be more accurately described as Lot 1 (SENENE), S06, T. 15S, R. 17E. Similarly, the Place of Use would be more accurately described as Lot 1 (NENE). [T]his subcase should also be decreed with a state basis and a November 7, 1930 priority date.

An I.C. § 42-1411A hearing was held by telephone on July 1, 2004. R. Lee Leininger appeared for the United States, along with Frederic W. Price; David J. Barber appeared for the State of Idaho; and Nicholas B. Spencer appeared for IDWR.

Conclusions of Law

1. The United States of America is entitled to a partial decree adjudicating a water right for subcase 47-16062 as described in the attached *Special Master Recommendation for Partial Decree for Water Right 47-16062*, and
2. The State of Idaho's *Objection* has no basis in law.

Order

THEREFORE, IT IS ORDERED that the State of Idaho's *Objection* is **denied**.
