TWIN FALLS CO., IDAHO
FILED _____

2004 JUL 7 AM 11 33

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA	) Subcases 47-15408, <i>et al.</i>
	) (see list of 8 subcases attached)
Case No. 39576	) (USDI / BLM)
	)
_____	) SPECIAL MASTER REPORT

Findings of Fact

The Director of the Idaho Department of Water Resources filed his *Director's Report for Domestic and Stockwater, Reporting Area 12 (IDWR Basin 47)* on August 14, 1998. The Director recommended the above 8 claims to the United States of America, Department of Interior, Bureau of Land Management, Idaho State Office, 1387 S. Vinnell Way, Boise, Idaho, 83709-1657, for .02 cfs from various springs in Twin Falls County for year-'round stockwater use with a priority date of January 1, 1875, based on beneficial use. The Director also noted under priority date:

4/17/1926 Claimed under federal reserved water right. This water right is also claimed based on federal law with an April 17, 1926, date of priority pursuant to an Executive Order signed the same date and known as Public Reserve 107.

On February 10, 1999, the State of Idaho filed an *Objection* to priority date for each claim: "If this water right exists, the State Law based portion of this right should have a priority date no earlier than June 28, 1934." The State also alleged that the water rights should not exist.

On May 12, 2003, the United States and the State filed a *Joint Motion to Vacate Hearing on Dispositive Motions and to Proceed with Hearing under I.C. § 42-1411(A)* in multiple subcases, including the above 8 subcases. On February 24, 2004, the State filed its *Report on Status of Idaho's Objections for Selected Subcases in Basins 35 and 47*. The *Report* noted that for each claim, the State's "Objection continues," and various serial register numbers were cited. The numbers indicate that applications for entry under various public land laws were pending

before the General Land Office on April 17, 1926, but in each subcase, the applications were extinguished prior to vesting and the land never left federal ownership. See *Special Master Report*, subcases 35-12996, *et al.*, dated October 28, 2003, for a full discussion of the issue.

On April 8, 2004, the United States filed an *Affidavit of John R. Ash* in 119 subcases (47-15285, *et al.*), including the above 8 subcases. Mr. Ash, a natural resource specialist with the USDI / BLM in the Jarbidge field office located in Twin Falls, stated that: 1) the claims are located on unreserved federal public domain as of April 17, 1926; 2) the lands currently remain under Department of Interior administration; 3) the water sources were verified and confirmed by field investigation; 4) there is sufficient surface water at the sites for consumptive use by livestock; and 5) the sources of water are naturally-occurring free-flowing springs located at the claimed points of diversion and places of use.

An I.C. § 42-1411A hearing was held by telephone on July 1, 2004. R. Lee Leininger appeared for the United States, along with Frederic W. Price; David J. Barber appeared for the State of Idaho; and Nicholas B. Spencer appeared for IDWR.

Conclusions of Law

1. The United States of America is entitled to partial decrees adjudicating water rights for the above 8 subcases as described in the attached *Special Master Recommendations for Partial Decrees for Water Rights*, and
2. The State of Idaho's *Objections* have no basis in law.

Order

THEREFORE, IT IS ORDERED that the State of Idaho's *Objections* are **denied**.
