1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

The recommendation of water rights is for 1 acre. We own 3.5 acres and do NOT understand why the water right is for only 1 acre. (See legal description attached)

2. Describe the changes you wish to make in the proposed recommendation:

we would like to have water rights for the full 3.5 acres we own.

3. Give a brief explanation as to why you disagree with these portions:

Challenge: Myra Miller were deeded approximately 80 acres along with water, water rights, ditch & ditch rights in 1956. Since that time they have deeded off acreages, which we now own 3.5 acres. If Millers total acreage had water rights, we would like to know if we should have more water rights than are on the preliminary recommendation.

☐ I AGREE with this proposed recommendation: no changes need to be made.
