Re: New SRBA claim and history on the water use

I met with Boyd Hill on 7/21/04. He was in the office concerning his notice regarding second round notice. He uses shares from Settlers Irrigation district, but had also filed on a well for irrigation and obtained license 63-09150.

63-09150 was licensed for 5 acres of irrigation from a well that is not located on Mr. Hills property. He now uses a well located on his property for both domestic and irrigation purposes. Mr. Hill stated that he has been using the well on his property for 30 years and the original well that is not located on his property has been abandoned for over 5 years. In addition, the original license 63-09150 did not speak of use for domestic purposes.

I spoke with Jan Shurte about this and we felt since the POD changed prior to 1987, IDWR could recommend an accomplished change in POD. And since the domestic use occurred prior to 1987, IDWR could recommend domestic use and irrigation use with the domestic use being documented as an accomplished change in nature of use. However, it was noted that the irrigation portion needed to be reduced so the original diversion rate was not increased. The domestic also covers some stock water use which is noted on the claim.

The claim was filed for 4 acres of irrigation with domestic. The total diversion rate recommended should not exceed 0.10 cfs.
