IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM

CIVIL CASE NUMBER: 39576

Ident. Number 63-31962
Date Received: 7/22/2004
Receipt No: W032031
Received By:

**NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW**

1. Name of Claimant(s)

ST LUKES REGIONAL MEDICAL CENTER
190 E BANNOCK ST
BOISE ID USA 83712

Phone: (208) 381-3595

2. Date of Priority: 02/10/1949

3. Source: GROUND WATER Trib. to:

4. Point of Diversion:

Township	Range	Section	1/4 of 1/4 of 1/4 Lot	County	Type
03N	02E	11	SW NW	ADA	

5. Description of diverting works:

Well is reportedly constructed with 6-inch well casing and is 160 feet deep. The well is equipped with a 7.5 hp submersible pump that reportedly produces 98 gpm. Water is piped into hospital water system.

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or) A.F.A
DOMESTIC	01/01	12/31	0.22	

7. Total Quantity Appropriated is:
0.22 C.F.S.

8. Total consumptive use:

9. Non-irrigation uses:

10. Place of use:

Township	Range	Section	1/4 of 1/4	Lot	Use	Acres
03N	02E	11	SW	NW	DOMESTIC	

11. Place of use in counties: ADA

12. Do you own the property listed above as place of use? Yes

13. Other Water Rights Used:

14. Remarks:

Emergency domestic water supply for St. Lukes Hospital

A February 10, 1949 design drawing for the "1950 Wing" of St. Lukes hospital shows the well, and indicates that it was equipped at that time with a 10-hp pump rated to produce 140 gpm at 80 feet of head. A letter from Ben Strawn indicates that the well was in use for domestic supply when he began working at the hospital in 1959. The well was re-equipped with a 7.5-hp pump and well screen in 1964, and has been used for emergency purposes since that time. Attachment A contains information related tot he well.

Fees paid under receipt no. W032031

15. Basis of Claim: Beneficial Use

RE: Downtown Hospital St. Luke's Facility Well

This letter is in regards to our previous discussion on the age of the St. Luke's Boise well and the date the well was first put into use. The well was in use at the time I began working at St. Luke's in November 1959. The well is located in the basement of the central wing and was used to supply domestic water for the hospital. Later, it was only used on evenings, nights and weekends and supplemented by city water. Due to the growth of the hospital and problems with the sand screen, in the early 60's it was taken out of service for a period of time. In 1964 it was put back into service again for emergency purposes only. At that time a new sand screen and pump was installed. I do not know when the well was originally drilled, but was told by plant personnel at the time, that the well was there prior to the construction of the 1950 wing.

If you have any question, please give me a call.

Sincerely,

A handwritten signature in black ink, appearing to read "Ben Strawn".

Terry

Here are the specifications to the pump for the downtown site. 160' deep 98 G.P.M.

6: Casing

7.5 H.P. Submersible pump

I hope this helps.

Thank You

Subject: Beneficial Use Claim – St. Luke's Regional Medical Center

Dear Jan:

On behalf of St. Luke's Regional Medical Center, I have enclosed a beneficial use claim for the emergency domestic water well at the St. Luke's Hospital in Boise. A check for the \$72 filing fee is enclosed. The filing fee is based on the \$50 flat fee and \$22 variable fee (for diversion rate of 0.22 cfs).

Please contact me with any questions.

Sincerely,

Terry M. Scanlan, P.E., P.G.
