Re: SRBA Subcase Nos. 29-376, 29-377, 29-389, 29-390, 29-4079 and 29-4080

Dear Special Master Bilyeu:

Enclosed please find SF5s for the above subcases. For Subcase No. 29-4079, I have provided an Amended SF5. An SF5 in that subcase was previously filed on May 19, 2004. A Special Master's Report and Recommendation was filed for this Subcase on June 1, 2004, however, after reviewing it along with the other subcases listed above, it was determined that changes were necessary to 29-4079.

If you have any questions concerning this matter, please call me at (208) 327-5404.

Very Truly Yours,

Candice M. McHugh

Case No. 39576

SUBCASE NO: 29-4079

AMENDED
STANDARD FORM 5

STIPULATED ELEMENTS OF A
WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; and they have been served with sufficient process, according to the law; and that they have appeared, prosecuted and defended their positions with regard to this water right dispute.

An SF5 was filed in this subcase on May 19, 2004. However, as a result of settlement activity in the overlapping contested right, 29-4080, additional changes to subcase no. 29-4079 were required. Hence, this Amended SF5 supercedes the original SF5. The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR indicate their concurrence by their signatures below and by initialing each of the attached pages.
