) SPECIAL MASTER REPORT

Findings of Fact

The Director of the Idaho Department of Water Resources filed his *Director's Report for Domestic and Stockwater, Reporting Area 22 (IDWR Basin 85)* on March 19, 1999. The Director recommended the above four claims to the United States of America, Department of Interior, Bureau of Land Management ("USDI/BLM"), 1387 S. Vinnell Way, Boise, Idaho, 83709-1657, for .02 cfs from various unnamed streams and a gulch for year-'round stockwater use in Idaho and Nez Perce Counties with a priority date of January 1, 1878, based on beneficial use.

The State of Idaho filed *Objections* on June 2, 1999, objecting to priority date and alleging the water rights should not exist. On September 17, 1999, the Western Stockgrowers Association, Joyce Livestock Company, Jerry Hoagland, Pickett Ranch & Sheep Company, Michael and Gary Poulton, Bruce, Jared, Karl and Scott Bedke and Joe Tugaw ("private parties") filed *Objections* alleging the water rights should not exist.

On August 29, 2002, the United States and the private parties filed a *Stipulation and Joint Motion for Order Approving Stipulation* in multiple related subcases, including the above four subcases. As part of the *Stipulation*, the private parties agreed to dismiss their objections and responses and "for claims on lands administered by the Bureau of Land Management, the United States shall receive a water right with a priority date which is the later of a) the claimed priority date or b) June 28, 1934."

On September 5, 2002, the Special Master entered an *Order Granting Withdrawal of Objections and Responses* in the related subcases objected to by the private parties. On April 21 and June 11, 2003, the Special Master entered *Orders Dismissing State of Idaho Objections* based on a *Stipulation to Resolve Objections* filed by the United States and the State. On June 8, 9 and 10, 2004, the United States, with IDWR's concurrence, filed *Amended Claim Standard Forms 5* agreeing to a priority date of June 28, 1934, and various amendments to source, point of diversion and place of use.

Conclusions of Law

The United States is entitled to partial decrees adjudicating water rights as described in the *Amended Claim SF-5's* and the attached *Special Master Recommendations for Partial Decrees for Water Rights 85-11965, 85-15217, 85-15219 and 85-15234*.
