Way point - 016

- established spillway at
672191
244346

recreational pond - well used - varying
depth.

Best guess is 1969 the dam was built
Bought during flood - 76'
- was built up before
- knew the prior owner - "Ritter" that
and used the pond before owning it

Started as a beaver dam and it
was built stronger.
