- (8) Remarks Because of a headgate installed by the Corps of Engineers, water flows through the slough on which the point of diversion is located during periods of high water. During the remainder of the year subwater arises in the slough but does not reach the river.

Scale: 2 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

State of Idaho)
County of Bingham) ss.

Be it known that the undersigned, being duly sworn, deposes and says that he, she, they subscribed the foregoing claim to a water right, together with all attached information, and that the matters and facts therein are true to the best of the affiant's knowledge.

Sworn to before me this 26th day of December, 19 77.
