- TO WHOM IT MAY CONCERN:

This is to make of record that about 1957 I, Dell Raybould did begin to reclaim water from a pond in the NE 1/4 of the NW 1/4 of Sec. 2 T. 6 N. R. 39E.

This was to reclaim seepage water from irrigation from fields adjacent to the above described pond. This was a natural pond with no outlet to any stream or man made channel. Water was pumped from the pond with a tractor mounted pump to a lateral sprinkler line, irrigating lands that were difficult to irrigate by flood irrigation due to unevenness of the land and the soil being shallow and not conducive to leveling.

This practice continued until the property was sold to Mr. Marvin Ball, and I understand that he has continued to pump from this pond in the same manner as I did.

Yours truly,

Dell Raybould
