Change of Address

Dear Claimants:

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water right(s) can be sent only to the address on your water right(s) or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary and list any other water rights you may have before returning this letter by October 30, 1998. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of the property connected with the water right(s) referenced above, please call this office toll-free at 1-800/451-4129 to obtain a form to make this required change to the water right record.

Sincerely,

Sally Sherman

RECEIVED

OCT 29 1992

August 24, 1988

Mac Murdock
District Forest Ranger
U.S. Forest Service
Driggs, Ida.
83422

Dear Mr. Murdock;

Dick Gebhard and I request approval for a 6 inch buried pipe to be extended 2000 feet from the present terminus of a 6 inch buried pipe in Pole Canyon. This request is necessary to provide irrigation water on our property at the mouth of Pole Canyon.

We presently have 1.75 CSF of water right on Pole Creek, but are unable to adequately utilize it. During this dry year the water at our present point of diversion was dry by July 10, 1988. As the owner of the largest tract of this property for 23 Years, I can verify that at least 10 of those years have been abnormally dry years and the water did not reach our property after July 10th. During normal years, the water at the point of diversion is depleted between August 1st and the 15th.

However, in my 23 years of experience with the waters of Pole Creek, I have always seen an adequate supply of water at the Forks of Pole Canyon. My finances have always restricted my applying for this change of diversion at an earlier date.

The amount of water loss in the 2800 feet of rocky stream bed between our present point of diversion and the proposed alternate point of diversion at the Forks of Pole Creek is astounding and a total waste of a very precious natural resource-water.

We propose to use the alternate diversion point at the Forks only when the waters at our present point of diversion are depleted. We also propose that the construction of the pipe line will be done with the least affect on the ecology of the canyon. The present buried pipe cannot be found nor can one find the line the pipe follows. We give you our assurance that this remaining 2000 feet will be done likewise.

Lastly, may we reiterate our need for this change. Our pastures are dry, the grass and brush are a fire hazard, and our grain and hay crops are extremely short. The 180 foot well at Dick's house is pumping mud.

The approval of this alternate point of diversion will permanently solve an age old continuous problem of inability to properly utilize our water rights, and always running out of water before the growing season is done.

Our situation is critical and we solicit prompt attention and approval to this request so that the work can still be completed in the next 80 days. Please give us a reply to this request within 15 days. Please call us if additional information is needed. We appreciated your courteous discussion of this problem at your office today.

Sincerely,

Gary W. Grandy
Box 107
