I. PROCEDURAL HISTORY

The above-captioned subcase was claimed pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources examined the water system for this reporting area and filed a *Director's Report*. The *Director's Report* contained a recommendation for these water rights.

Objections were filed to the recommendation for the above right by the United States, Department of Interior, Bureau of Reclamation (United States) and the Boise Project Board of Control (Board of Control) regarding the season of use, period of year element recommended for the water right. The Idaho Department of Water Resources filed a *Case Management Report* on March 10, 2003 in the above captioned subcase.

On July 6, 2004, the Court rescinded the *Order of Reference to Special Master Thomas Cushman* and set a Status Conference for August 17, 2004. The Court ruled that Judge John M. Melanson would preside over the subcase in the same manner as specified in *Administrative Order 1* for proceedings by Special Masters. On August 11, 2004, a *Standard Form 5/Stipulated Elements of a Water Right* form was filed, signed by the Claimant's Estate's Personal Representative and the Objectors with IDWR concurrence. Letters Testamentary for the Personal Representative were attached to the SF5. The Court vacated the Status Conference set for August 17, 2004.

II. CONCLUSIONS OF LAW

It appears from the record that all objections have been resolved. Therefore, based on the

file and record herein and pursuant to the *Standard Form 5*, IT IS RECOMMENDED that the above water right be decreed with the elements as set forth in the attached *Recommendation for Partial Decree Pursuant to I.R.C.P. 54(b)*.
