

A25-11197 Summary 1/21/04

Ownership: Correct

POD: 4N 38E 8 NW NE

GPS Waypoint 10 660,379E 290,445N
IDTM

POU: 4N 38E 8 NW NE

Overlap: There is a new well just east of the property drilled in the last few years which will be hooked to the city shop & become an overlap. Its purpose is for a city park (I don't know if for irrigation or for domestic in restrooms/shelters). Because it is recent I presume it is permitted or licensed.

Conflict: None noted

Priority: Mayor Barbara Blair will try to get documentation. If none is provided I propose recommending as de minimus with the "Not a determination of historical use..." remark.

A25-11197 Summary p2 1/21/04

Quantity: I propose minimum amounts
 $0.04 \text{ cfs} / 2500 \text{ gallons/day} = 2.8 \text{ cfa.}$

Water use: The use is actually commercial-washing & general use in city maintenance shop. No water is supplied to city residents; all residents have private wells.

City of Lewisville
112 E Main St
PO Box 160
Lewisville, ID 83431

Re: Water Right Adjudication Claim(s) A25-11197

Dear Water User:

Idaho Department of Water Resources (IDWR) is reviewing claims to water rights in the Snake River Basin Adjudication in your area. Water Resources Field Services has been retained to do field inspections to aid the Department in making correct recommendations to the court. In the next weeks and months, IDWR is scheduling your field appointment to look at your diversion works and uses of water.

The main purposes of this visit will be to locate and photograph the well(s) and to collect evidence of priority to allow IDWR to make a correct recommendation.

I look forward to helping make sure your water right recommendation is correct. Please call IDWR if there is a particular time that would be convenient for you. You may call in the evenings, or leave a message on the answering machine.

Sincerely,

Bryce A. Contor
