Water Resources Field Services

General Comments

I called the owner on the telephone and learned that the land with the apartment building was sold to the city a number of years ago and the land is now a park. The well is still used, but just for a single residence, and the owner has no plans for any other use of the well. Based on this interview I propose recommending this as a de minimus domestic, so I did not drive to Rigby to do a field exam. Since the claimant paid the "large claim" fee and has evidence of priority, I propose the recommendation *not* carry the N11 remark about "not a determination of historical use."

Ownership

Correct. The mailing address and telephone number are also correct.

POD

The physical location of the well is 355 Centennial Lane in Rigby.

POU

The water is used at 355 Centennial Lane in Rigby.

Overlap

None noted.

Conflict

None noted.

Priority

12/31/1948

Quantity

I propose 0.04 cfs/13,000 gallons per day/ 1.2 acre feet per year.

Water Use

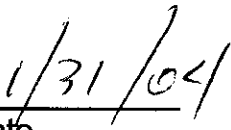

Domestic

List of Photos

None

Re: Water Right Adjudication Claim 25-11456

Dear Water User:

Idaho Department of Water Resources (IDWR) is reviewing claims to water rights in the Snake River Basin Adjudication in your area. Water Resources Field Services has been retained to do field inspections to aid the Department in making correct recommendations to the court. In the next weeks and months I will be contacting you to make an appointment to look at your diversion works and uses of water.

This water-right claim is for one home and four apartments.

I look forward to helping make sure your water right recommendation is correct. Please contact me if there is a particular time that would be convenient for you. You may call in the evening, or leave a message on the answering machine.

Sincerely,

Bryce A. Contor
