General Comments

The claim states this is a portion of license 25-7305. 25-7305 has already been partially decreed as a deminimus domestic, so I have examined this right as if it is a separate right sharing the same POD. Note that 25-7305 includes remark N11 "The quantity of water decreed for this water right is not a determination of historical beneficial use." If 25-7305 is indeed based on a license, that remark may be inappropriate.

The claimed priority date is after the statutory-requirement date of 1963, and there is no evidence of priority in the file. I propose recommending this as a non-residential deminimus domestic with the N11 remark and the 2500 gallon-per-day remark.

Ownership

Appears to be correct.

POD

Legal description appears to be correct. The well is behind the fence on the south side of the building. GPS location is IDTM 661,997E 274,526N, waypoint number 2.

POU

The place of use is a dog grooming business and kennel.

*Claimed location
appears to be correct.*

Overlap

The POD is shared with 25-7305.

Conflict

None noted.

Priority

I propose recommending as claimed with remark N11.

Quantity

The deminimus diversion rate of 0.04 cfs and volume of 2,500 gallons per day should be adequate. There are two employees, one customer restroom, and up to 60 dogs being boarded. Using the field examiner's handbook rates of 15 gallons/shift/day worker, 400 gallons/day for a store restroom, and 2 gallons/day/goat or sheep to represent the dogs' water usage, total usage is well under the deminimus volume.

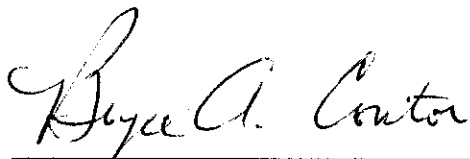

I propose 0.04 cfs, 2,500 gallon/day limitation, and 2.8 acre feet/year volume.

Water Use

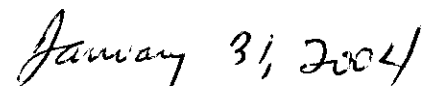

Deminimus non-residential domestic.

A25-12143 Preview & Contact Log

1/16/03 - license 25-7305 appears to be basis of this claim. Attached printout shows 25-7305 was decreed as deminimus with remark N11, so there is no advantage to asserting A25-12143 is part of 25-7305 except to exceed 2,500 gallons/day.

1/16/03 12:13 524-2220 no answer

From field examiner's hand book -

Stores - per toilet room - 400 gallons/day

livestock - goats 2 gallons/day

hog 4 gallons/day

Workers 15 gallons/person/shift.

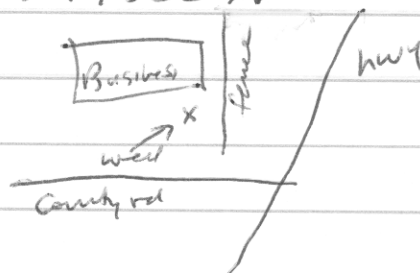

- 1/19/04 2 employees, up to 60 dogs.

* IDTM 661997 E 274526 N

1 photo of business

A25- 12143

Calculations

1/19/03

Daily Vol.

60 dogs x 2 gal =

120 gal

2 employees x 15 gal =

30 gal

Customer restroom

400 gal

550

550 gal < 2500 gal so demm.
limit is OK.

Re: Water Right Adjudication Claim(s) A25-12143

Dear Water User:

Idaho Department of Water Resources (IDWR) is reviewing claims to water rights in the Snake River Basin Adjudication in your area. Water Resources Field Services has been retained to do field inspections to aid the Department in making correct recommendations to the court. In the next weeks and months I will be contacting you to make an appointment to look at your diversion works and uses of water.

I look forward to helping make sure your water right recommendation is correct. Please contact me if there is a particular time that would be convenient for you. You may call in the evenings, or leave a message on the answering machine.

Sincerely,

Bryce A. Contor
