Re: Water Right Adjudication Claim A25-12862

Dear Water User:

Idaho Department of Water Resources (IDWR) is reviewing claims to water rights in the Snake River Basin Adjudication in your area. Water Resources Field Services has been retained to do field inspections to aid the Department in making correct recommendations to the court. In the next weeks and months I will be contacting you to make an appointment to look at your diversion works and uses of water.

This claim is for the well at the old "TG & T Produce" fresh pack shed, which I understand you now own. To protect your water right, we need to locate the well and gather information on its capacity and historical usage. Even more important, we need to document the priority date. Please call me or give me a phone number where I may reach you.

I look forward to helping make sure your water right recommendation is correct. Please contact me if there is a particular time that would be convenient for you. You may call in the evenings, or leave a message on the answering machine.

Sincerely,

Bryce A. Contor

Re: Water Right Adjudication Claim(s) A25-12862

Dear Water User:

Idaho Department of Water Resources (IDWR) is reviewing claims to water rights in the Snake River Basin Adjudication in your area. Water Resources Field Services has been retained to do field inspections to aid the Department in making correct recommendations to the court. In the next weeks and months I will be contacting you to make an appointment to look at your diversion works and uses of water.

If I can include in the file some documentation of the claimed priority date for the potato warehouse well, it will help IDWR make a more favorable recommendation on your water right.

I look forward to helping make sure your water right recommendation is correct. Please contact me if there is a particular time that would be convenient for you. You may call in the evenings, or leave a message on the answering machine.

Sincerely,

Bryce A. Contor

A25-12862 Summary 9/24/03

- 1) Ownership. Per courthouse new owners are R. Jan and Lynn Del Oltmans, 2259 E 93th S. Idaho Falls 83404. Per phone book phone # is 523-4249. Oltmans' have not responded to letter or phone messages.
- 2) POD. I did not locate POD, it is probably inside one of the buildings. GPS location 663207E 261795N waypoint 12862 is in the driveway in front of the newer building. Claim legal is probably correct.
- 3) POE appears correct.
- 4) Evidence of Priority: None
- 5) Water use: It looks like this was an old Fresh Pack shed but there are no indications of waste water ponds or tanks so I don't know how much washing of potatoes was done. Currently the building appears unused.

A25-12862 p2

- 6) I propose recommending this as a de minimus Domestic w/ the "Not a determination of historical..." and "Limited to 2,500 gallons per day..." remarks.

Syue G. Conton

- 7) Photos - 2 of building at Poe.

Well Information at Hitt (Hockman) & York

The date the well was drilled ~~at~~ the Martin Bros.
Potato Warehouse at Hockman Siding was 1935

The well driller was John's Well Drillers from
Idaho Falls.

The drilling was witnessed by Lloyd Martin

Signed by *Lloyd Martin*
