Department of Water Resources
Eastern Region

To Whom It May Concern:

21-4016

I hereby state that I had built and installed a pump in the Henry's Fork of the Snake River. I started using this system in the spring of 1962. This system consists of a short coupled turbine pump with four bowls, driven by a vertical mounted 75hp electric hollow shaft motor, and also steel and aluminum mainline and hand move sprinkler lines. The system was designed, sold and installed by Ames Irrigation Company of Idaho Falls. Bert Hansen was the engineer in charge. The pump was designed by Johnston Pump Company of Idaho Falls. The pit and waterline trenches were dug by Gerald Kent of Ashton. These firms are now out of business and Mr. Hansen and Mr. Kent are both deceased. I have been unable to find the original purchase agreements and bills for this installation. I do have my 1962 account book and income tax return with records of the pump/irrigation system and its installation.

This pump was tested by Eric Verner of the Idaho Department of Water Resources in 1984. I have some work papers that he left me. Mr. Verner's field notes show me as owning 307 acre feet of Fremont Madison storage water.

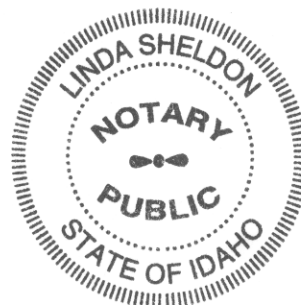

James R. Nedrow

STATE OF IDAHO
COUNTY OF FREMONT
CITY OF ASHTON

On this 10 day of August 2004
before me a notary public in and for said State, personally
appeared James R. Nedrow
known to me to be the
(person/persons) whose (name/names) (is/are) subscribed to
the within instrument and acknowledge to me that (he/she, they)
executed the same.

My commission expires 1-28-06

Linda Sheldon
