Case No. 39576) (USDI/BLM)

) AMENDED SPECIAL MASTER
) REPORT

Findings of Fact

The Director of the Idaho Department of Water Resources filed his *Director's Report for Domestic and Stockwater, Reporting Area 22 (IDWR Basin 84)* on March 19, 1999. The Director recommended 84-11984 to the United States of America, Department of Interior, Bureau of Land Management, Idaho State Office, 1387 S. Vinnell Way, Boise, Idaho, 83709-1657, for .02 cfs from an unnamed stream for year-'round stockwater use in Idaho County with a priority date of November 18, 1895, based on beneficial use.

On June 2, 1999, the State of Idaho filed an *Objection* in multiple subcases, including subcase 84-11984, objecting to priority date ("If this water right exists, the State Law based portion of this right should have a priority date no earlier than June 28, 1934.") and alleging that the water right should not exist. On September 17, 1999, the United States filed an *Objection* to points of diversion and place of use.

On August 29, 2002, the United States and certain private parties filed a *Stipulation* in multiple subcases, including 84-11984, and an *Order Granting Withdrawal of Objections and Responses* was entered on September 5, 2002. On June 11, 2003, an *Order Dismissing State of Idaho Objections* was entered based on the parties' *Stipulation to Resolve Objections*.

On June 9, 2004, the United States, with IDWR's concurrence, filed an *Amended Claim Standard Form 5* agreeing to a June 28, 1934, priority date and amended point of diversion and place of use.

On July 28, 2004, the Special Master entered a *Special Master Report*. However, on August 18, 2004, counsel for the United States contacted the SRBA Court to request correction of a clerical error under the recommended place of use.

The United States is entitled to a partial decree adjudicating a water right under claim 84-11984 as described in the *Amended Claim SF-5* and the attached *Amended Special Master Recommendation for Partial Decree for Water Right 84-11984*.
