

A25-04286

Summary

9/18/03

- 1) POB is marked correctly on layout. Well cap is under the lawn but the surface is disturbed / Claimant was able to easily locate it. GPS 662,854 E 277,768 N, Waypoint 4286.
- 2) POB is marked correctly on layout. You can see the house / driveway which are not irrigated.
- 3) Evidence of Priority. File contained an unsigned affidavit. Claimant reviewed and signed it, and I notarized it. Conflicting statements regarding the date of pump installation and commencement of irrigation may make actual priority slightly before or after statutory date. I propose giving claimant the benefit of the doubt as I believe the judge would if this went to trial.

Re: Water Right Adjudication Claim(s) A25-04286

Dear Water User:

Idaho Department of Water Resources (IDWR) is reviewing claims to water rights in the Snake River Basin Adjudication in your area. Water Resources Field Services has been retained to do field inspections to aid the Department in making correct recommendations to the court. In the next weeks and months I will be contacting you to make an appointment to look at your diversion works and uses of water.

This is a follow-up to an inspection made in 2002 by Intrepid Technology and Resources. I will be photographing the well and irrigated lands, and reviewing the aerial photograph you edited and returned.

I look forward to helping make sure your water right recommendation is correct. Please contact me if there is a particular time that would be convenient for you. You may call in the evenings, or leave a message on the answering machine.

Sincerely,

Bryce A. Contor

Dear Claimant in the Snake River Basin Adjudication (SRBA):

About 13 years ago you or your predecessor filed with the Idaho Department of Water Resources a claim to water right in the Snake River Basin. The investigation phase of this process is now focused on your area, Basin 25.

You are invited to attend a public meeting to be held on **March 10 at 7:00 p.m. in the West Coast/Red Lion Hotel, 475 River Parkway, Idaho Falls, Targhee and Bonneville Rooms.** The purpose of this meeting is for (1) the Department to update you on how the adjudication process works, and (2) for you, the claimant, to express concerns or discuss problems relating to water delivery in your area. This will help us to understand from an historical perspective the use and delivery of your water right.

Throughout this summer our adjudication staff, primarily from our Eastern Regional Office but also at times from Boise, will be contacting various water users in Basin 25. We ask for your cooperation in this process – the better we understand your water rights the better chance of you receiving an accurate decree from the SRBA Court that fully describes your water rights.

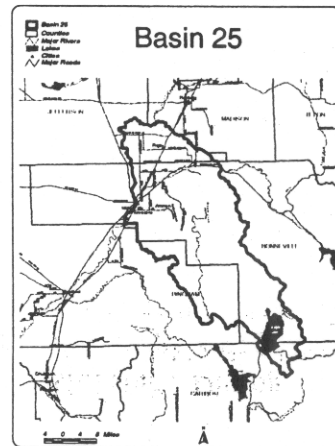

This investigation effort is being conducted by an experienced and successful staff. During recent years, this staff has accurately investigated and reported water rights in neighboring basins including the Big Lost River, the Little Lost River, Birch Creek, Camas Creek and the Portneuf River.

Please contact the Idaho Falls Office with any questions.

Sincerely,

Ernest Carlsen
Adjudication Supervisor, Eastern Region
