Met with Todd Sutton and Ben Summers of Idaho Pacific. They said that through the year 1987 all three irrigation wells were being used to supplement the land application of their wastewater and irr.

Their industrial well was not used for this purpose until 1994. Between 1994 and 1996, their wastewater land application increased from 228 acres to ~ 320 acres.

They plan on filing a transfer to change POD on industrial WR's and add POD to irrigation WR's.
