To Dept of Water Resources
Re claim # 22-12893

I purchased this property in 1983 from Mr. Del May who had owned the property for at least 10-15 years. When he acquired the property he put in the IRRIGATION ditch to feed his stock watering and general use pond.

I have no idea where to locate Mr May or if he is still alive.

I do believe 1968 is the correct year for the IRRIGATION ditch as when we arrived in 1983 it had obviously been there for quite some time.

Thank You
Steven Reibler
