municipal.sbx (1k), municipal.shp (359k), municipal.shx (1k)

Bryce,

I will send you the Municipal shapefile I have been putting together over the past year. It will have the current service area boundary we have for Idaho Falls.

Mark

Subject: City of Idaho Falls Service Boundary Maps

Hi fellas.

As Michael knows, I'm working under contract to do some AJ field work. One of the requested items is a map of the service area of the City of Idaho Falls. Carroll Aamold of the city water dept. is sure he sent a service area map to "IDWR" about 5 years ago, but he can't remember to whom (not even whether it was Boise or Idaho Falls).

Anyway, as a courtesy to Mr. Aamold, I said I'd pursue it. Any of you know anything?

Thanks, Bryce

A25-07398

Dear Water User:

Idaho Department of Water Resources (IDWR) is reviewing claims to water rights in the Snake River Basin Adjudication in your area. Water Resources Field Services has been retained to do field inspections to aid the Department in making correct recommendations to the court. In the next weeks and months I will be contacting you to make an appointment to look at your diversion works and uses of water.

The main purposes of this visit will be to map the service area of the municipal water system and to photograph and locate the wells associated with the older water right licenses. Please forward this letter to the appropriate city officials, or let me know whom I should contact.

I look forward to helping make sure your water right recommendation is correct. Please contact me if there is a particular time that would be convenient for you. You may call in the evenings, or leave a message on the answering machine.

Sincerely,

Bryce A. Contor

Bryce,
This is the data I believe you requested of Dayna. A few of the wells have not been GPS'd or else I do not have the data.

Tim
