Met w/ Greg Eames. Confirmed ownership info + address as being correct.

P/D is 15 HP pump shared w/ Stokes, Lance, Bob Eames, and Stone.

POU observed and corrections made on layout. Claimant provided copy of ASCS map, which shows 69.4 acres irrigated. Additional acres due to post-1987 changes. Recommend 64 ac as claimed.

Claimant mentioned disputes with Dee Stokes / Vaughn Hunter who have ground to S and W of claimed POU. Greg says they take substantially more than their share. He also showed me what he believed to be an illegal diversion out of a creek which is used as a drain for Long Island Canal. Photo taken.

I don't recall Vaughn Hunter claim. Look it up. (Boyce has this one.)
