)

I. FINDINGS OF FACT

Claims were filed for these water rights pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources examined the water system for this reporting area. The *Director's Report* contained recommendations for the elements of these water rights.

Objections were filed by the State of Idaho on February 23, 1999. *Objections* were filed by the United States Bureau of Land Management on April 6, 1999. The *Objections* to these water rights were resolved with the filing of *Standard Forms 5/Amended Claims* on May 28, 2004. All parties to the subcases and IDWR are signatories to the *Standard Forms 5/Amended Claims*. The *Standard Forms 5/Amended Claims* were placed on the Docket Sheet. No objections were filed and the time for filing such objections has now expired.

II. CONCLUSIONS OF LAW

The United States claimed these rights under state law. There is no assertion that these rights are based on a federal reservation. Therefore, based on the file and record herein, IT IS RECOMMENDED that these water rights be decreed with the elements set forth in the attached *Special Master's Recommendations for Partial Decrees*.
