Water Rights # - Please See Attached List
Change of Address

Dear Water Right Holders:

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water rights can be sent only to the address on your water right or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary and list any other water rights you may have before returning this letter by September 17, 1999. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of the property connected with the water rights referenced above, please write down the name and address of the new owner(s) so we can send them a form to make this required change to the water right record.

Sincerely,

Sally Sherman

RE: Recommendation of Claim Nos: 45-2578 & 45-2597

Both of the above rights for ground water were enjoined in a lawsuit in 5th District Court - Briggs v Higginson - which resulted in a judgment issued June 25, 1980. This decree is also known as the Golden Valley Decree, and it limited the number of water rights and listed the wells that could be used by the various enjoined parties within the affected aquifer.

The priority date of license 45-2578 is April 29, 1959, the priority date of 45-2597 is January 13, 1960. In 1972, during the time that these rights were enjoined in the lawsuit, Transfer #1876 was approved, which changed the points of diversion and limited the combined number of acres under 45-2578 and 45-2597 to 1434. Not all of the wells approved as points of diversion in transfer #1876 were eventually listed in the 1980 decree.

In 1989, SRBA claims were filed listing the same POU for 45-2578 and 45-2597, which represents accomplished transfers of POU for both rights. I am recommending these rights as claimed, limited to a combined total of 1434 acres within a PPU.

In remarks, the claimed wells were identified by power pole number to explain the listed pod legal descriptions. A pod legal of NWNW Section 31 was claimed which corresponds to a well at pole number 437 that was not listed in remarks, nor included in the decree. Given that the claimant may not have been sure of the legal description but likely familiar with the well numbers, I am disregarding well 437.

2003 water master information indicates that only three of the six listed wells are currently in use. See table below.

II.

The well at Pole No. 201 shall be used only as a part of a group of wells used by Tugaw to pump his 1,663 acre feet. The well at Pole No. 207 has been transferred to Tugaw and may be used by him in accordance with this Judgment.

III.

Golden Valley may pump the wells at Poles 216²¹⁷ and 386 under Permit Nos. G-27908 and G-28374, but total withdrawal from all listed wells of Golden Valley shall not exceed the total quantities stated in Paragraph I hereinabove.

IV.

The quantity of underground water which each of the parties shall be entitled to divert and use annually from the first 5,500 acre feet of water annually diverted from the limestone aquifer in Cassia County, Idaho under the provisions of Paragraph X of the Amended Decree made and entered on October 1, 1971, in said Civil No. 7876, be and the same are hereby fixed and determined to be the respective quantities of water in acre feet per year as set forth in Paragraph I hereinabove under the respective water rights and priorities stated therein and the rights of the parties to the annual diversion and use of the quantities of water in acre feet per year stated therein be and the same are hereby settled, confirmed and adjudged to be final and binding on the parties hereto.
