WILD ROSE GRAZING ASSOCIATION

SCOTT, RAY, BRUCE, AND JASON BEDKE, AND GARY POULTON

SUBJECT: AMENDMENT TO: A45-10325, A45-10327, A45-10329, A45-10330, A45-10331, A45-10332, A45-10333, A45-10334, A45-10335, & A45-10336. AMENDMENT TO: A47-14924, & A47-14923.

phone () walk-in(X)

The grazing association amended the priority date on the above claims to 4-1-1872.

We discussed the issues concerning claiming stockwater uses as falling into three general categories. 1. In-stream use; 2. A developed spring at the source; and 3. A developed spring/stream with a significant delivery system, primarily a pipeline stocktank system. I indicated that many of their claims may have to be revisited, maybe even additional claims filed.

We reviewed the rights sent to the court and they took objection forms home to complete and send out.

We also discussed the federal filings for stockwater and I showed them the USFS maps that were provided for department review. They indicated that they may wish to object to many of those rights. I suggested that they contact the court to determine the procedure required to file multiple objections. I generated a selection file BEDKE-BLM-CHECK for claims in TNS 15S & 16S; RNG 21E; and parts of 14S. I then deleted F records and decreed rights that appeared to be irrigation rights. I used that selection file to generate a number list for his review. Jeanie Robertson assisted me in this process.

DESCRIPTIVE SUMMARY

This document is the Stipulation and Joint Motion for Order Approving Stipulation, filed by the United States of America ("United States") and the private parties listed on Attachment #1 ("Private Parties").

right claim and the source is undeveloped (*i.e.*, instream or an undeveloped spring), the Private Parties' water rights shall be decreed as described in the last sentence of section 5A(i) above.

iii. Claims for which the United States has received a partial decree for a developed source. If the United States has received a partial decree for a water right claim and the source is developed, the overlapping or competing claims of the Private Parties shall have a priority date that is one-day junior to that of the United States' priority date as described in the decree. However, if the Private Parties can provide 1) evidence of stockwatering use of the water source preceding the priority date of the United States' decree, and 2) a patent or deed for their "base property," as such term is defined in 36 C.F.R. § 222.1 and 43 C.F.R. § 4100.0-5, that is at least as senior as the water use date, the Private Parties' priority date shall be the water use date. Moreover, if the priority date of the United States' decree is based on beneficial use and such date significantly predates the date of the development, the overlapping or competing claims of the Private Parties shall have a priority date that is one-day senior to that of the United States' priority date.

iv. Claims for which the United States has a Public Water Reserve 107 reservation. If the United States has a claim or a decree for a spring under Public Water Reserve 107 ("PWR 107"), the overlapping or competing claims of the Private Parties shall have a priority date that is one-day junior to that of the United States' priority date, unless the Private Parties can provide 1) evidence of

WATER RIGHT LICENSE

WATER RIGHT NO. 45-07594

Priority: April 1, 1986

Maximum Diversion Rate:
Maximum Diversion Volume:

0.01 CFS
4.0 AF

This is to certify, that US DEPT OF AGRICULTURE
FOREST SERVICE
FEDERAL BLDG
324 25TH ST
OGDEN UT 844010000

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated April 1, 1986; and has submitted Proof of Beneficial Use on January 23, 1987. An examination indicates that the works have a diversion capacity of .010 cfs of water from:

SPRING
CHALK SPRING

tributary to SINKS
tributary to SINKS

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
STOCKWATER	01/01 to 12/31	0.01 CFS	4.0 AF
WILDLIFE	01/01 to 12/31	0.01 CFS	4.0 AF
	Totals	0.01 CFS	4.0 AF

LOCATION OF POINT(S) OF DIVERSION:

NWNE , Sec. 25, Township 15S, Range 20E
SWNE , Sec. 25, Township 15S, Range 20E
CASSIA County

PLACE OF USE: STOCKWATER
TWN RGE SEC

15S 20E 25	NENE	SWSE
36	SWNE	NWSE
16S 20E 1	NESE	

PLACE OF USE: WILDLIFE, same as STOCKWATER use

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the beneficial use of use.

Boise, ID 83720-9000

RE: WATER RIGHT NOS. 45-7549, 45-7591, 45-7594, 45-7595, & 47-8032

Dear Ms. Curtis:

We have reviewed the proposed applications listed above for amendment accuracy as requested in your letter of April 20. The first three of these proposed amendments are not completely correct as written because of minor land description and location discrepancies. These discrepancies are described for each proposed amendment as follows:

45-7549 is a small stockwater pond (West Goose Creek Pond #2) located in, and collecting water from a spring in the SWNESE, Sec. 18, Township 16S, Range 19E, as shown on the attached map, although it is close to the center of the SE quarter of that Section. Also, please correct the place of use to the NESE of that Section. There is a pond located at Rattlesnake Spring that, according to our records, was constructed in 1940, but that is not the pond nor source intended with this application.

45-7591 is for the development of a headbox, pipeline to a trough, and a stockwater pond to collect water from Meadow Spring in the SENESW, Sec. 6, Township 16S, Range 19E, as shown on the attached map. This location is in the same 40-acre, quarter-quarter section as in the original application. The original map was intended to be correct, as the place name, Meadow Spring, appears on the USGS quad map correctly, but the trough symbol was misplaced by that printed place name.

45-7594 is for the development of a headbox and pipeline to an adjacent trough, and to four more troughs over about two and one-half miles, for water from Chalk Spring and an unnamed spring as shown on the attached map. The proposed amendment goes a long way to show the correct description as opposed to the original application, but one of the five troughs is mis-described, and diversion location for the unnamed spring (or Chalk Spring II) is not given. There is no trough in the SWSE, Sec. 36, Township 15S, Range 20E; the trough is in the NWSE of that Section 36. The primary water source, Chalk Spring, is correctly located in the NWNENE of Section 25, but the identified secondary source should also be included in the SWNENE of Section 25.
