Subj: Claim Based on Application

Hello. I just called you, but you are out with a sick child.

This is one of those things I haven't done, so I'm being a jerk and passing it off to you. (undoubtedly, there will be a few other things before I get done).

Claim A45-07580 is based on an application. That application has since lapsed (letter to application dated 12/5/1990). Since we shouldn't have taken the claim in the first place, my plan is to renumber it and change the basis of claim to beneficial use, and then send a letter to the claimant telling him of the change, but I've never done this before, so I'm not sure if this is the right procedure.

My last day in Adjudication Bureau of April 2, so if you give me some direction, I'll be happy to do this.

Either way. Let me know. (hope the child is healthy by the time you read this!!)

hht

RE: Amend Claim A45-07567

Dear Mr Woodhouse:

Pursuant to our phone conversation of this day please find enclosed the draft amendment of the above referenced claim to correct the "Bad Address Record" which we have found on your original claim. I have enclosed a copy of the front of your original claim with the problem address circled in red. As we discussed if the amendment seems appropriate please sign the amended claim before a notary and return it to our office. If you have questions please feel free to contact our office.

Sincerely,

A handwritten signature in black ink, appearing to read 'Allen D. Merritt'.

"Bad Address Problem"

NAME OF PARTY:

Don Wolvonten - 734-7004

No Answer

This day I phoned Kirk Woodhouse & he indicated that Woodhouse brothers had bought out Clyde Goodrich. He indicated that Golden Valley Land & Cattle Co. still had $\frac{1}{3}$ interest. I looked on AJQ1 and found the address for (Golden Valley ...).

I told Kirk I would draft the amendment of the claim to correct the names & address and send it to him for his review, signature & return.

MEMORANDUM

To: Allen Merritt
From: Helen Harrington-Thornton *HT*
Date: March 26, 1993
Subject: "Bad Address List"

=====

A request was recently made by Judge Hurlbutt for a list of addresses of all claimants in the SRBA. When that list was prepared, several claims showed up with errors in the address. Attached is a portion of that list that is pertinent to Southern Region.

It would appear that at least a few of these are "original" owners that were accidentally left on the claim without a change in ownership code. However, since we may have a claim listing these names, we will need to have the correct claimant amend the claim to correct the records. However, I am forwarding these to the region rather than taking care of them myself because the original claim file will need to be checked to confirm what is actually on the claim. If we are lucky, the problem is a data entry error rather than a claimant error (i.e., the claim is handwritten and is correct, but the data entry neglected to changed the owner code).

I believe that if the error is NOT a data entry error, we will need to have the claimant amend the claim to correct the problem.

I haven't heard that there is any deadline for these corrections, but you might check with Carter or Don if you have any questions.

MEMO

From: Vikie Hancock

To: Kay Walker

Date: 02/03/2004

Regarding: SRBA Claim No: 45-7567 based on Permit 45-7567

On October 25, 2001 I visited the uppermost diversion from Big Cottonwood Creek with watermaster Verl Okelberry. The diversion works consist of a cement structure with a gate spanning the creek. At this point water can be diverted into a ditch to the north-west side of Big Cottonwood Creek for water rights 45-423A, 45-423B, 45-424, 45-442, 45-13534 & 45-13536. This same ditch is also used to convey water from Big Cottonwood to the injection sites for ground water recharge identified in permit 45-7567. The diversion is gated and the flow is measured through a flume.

At this same site, water may also be diverted into a ditch to the south-east side of Big Cottonwood Creek for delivery to other rights. I GPSd the site standing on the cement works spanning the Creek. After downloading the point into ArcView I discovered that the diversion is located in the NWNESEW Section 17 T13S, R21E.

I also visited a site that was proposed to divert water from Big Cedar Canyon Creek. My observations substantiate Jim Stanton's report that this site was never developed. According to the water master, problems with silt loading during high water in Big Cedar Canyon made this source impractical.

RE: Permit No. 45-07567 – SOUTHWEST IRRIGATION DISTRICT

Dear Mr. Parsons:

We are in the process of reviewing the above referenced permit for licensing purposes and find we need additional information concerning the ditch that conveys the ground water to the injection wells. In 2001, I attempted to contact the irrigation district at their address on record in our files and did not get any response.

We are proposing to include some conveyance losses for this permit and need to know the depth and width of the ditches that are used to convey the water. We also need to know the type of soil that the ditches are made up of, if that information is available.

I have included a copy of the map that our examiner completed, while doing his field examination, so you could identify the ditches I am requesting information on. Please submit any information you have, regarding these ditches, within the next thirty (30) days so we can proceed with the licensing of this permit. If we don't hear from you within this time period we will assume you are not interested in conveyance losses for this right and proceed with licensing the permit without conveyance loss. If the district is not interested in pursuing conveyance loss, please let me know at your earliest convenience.

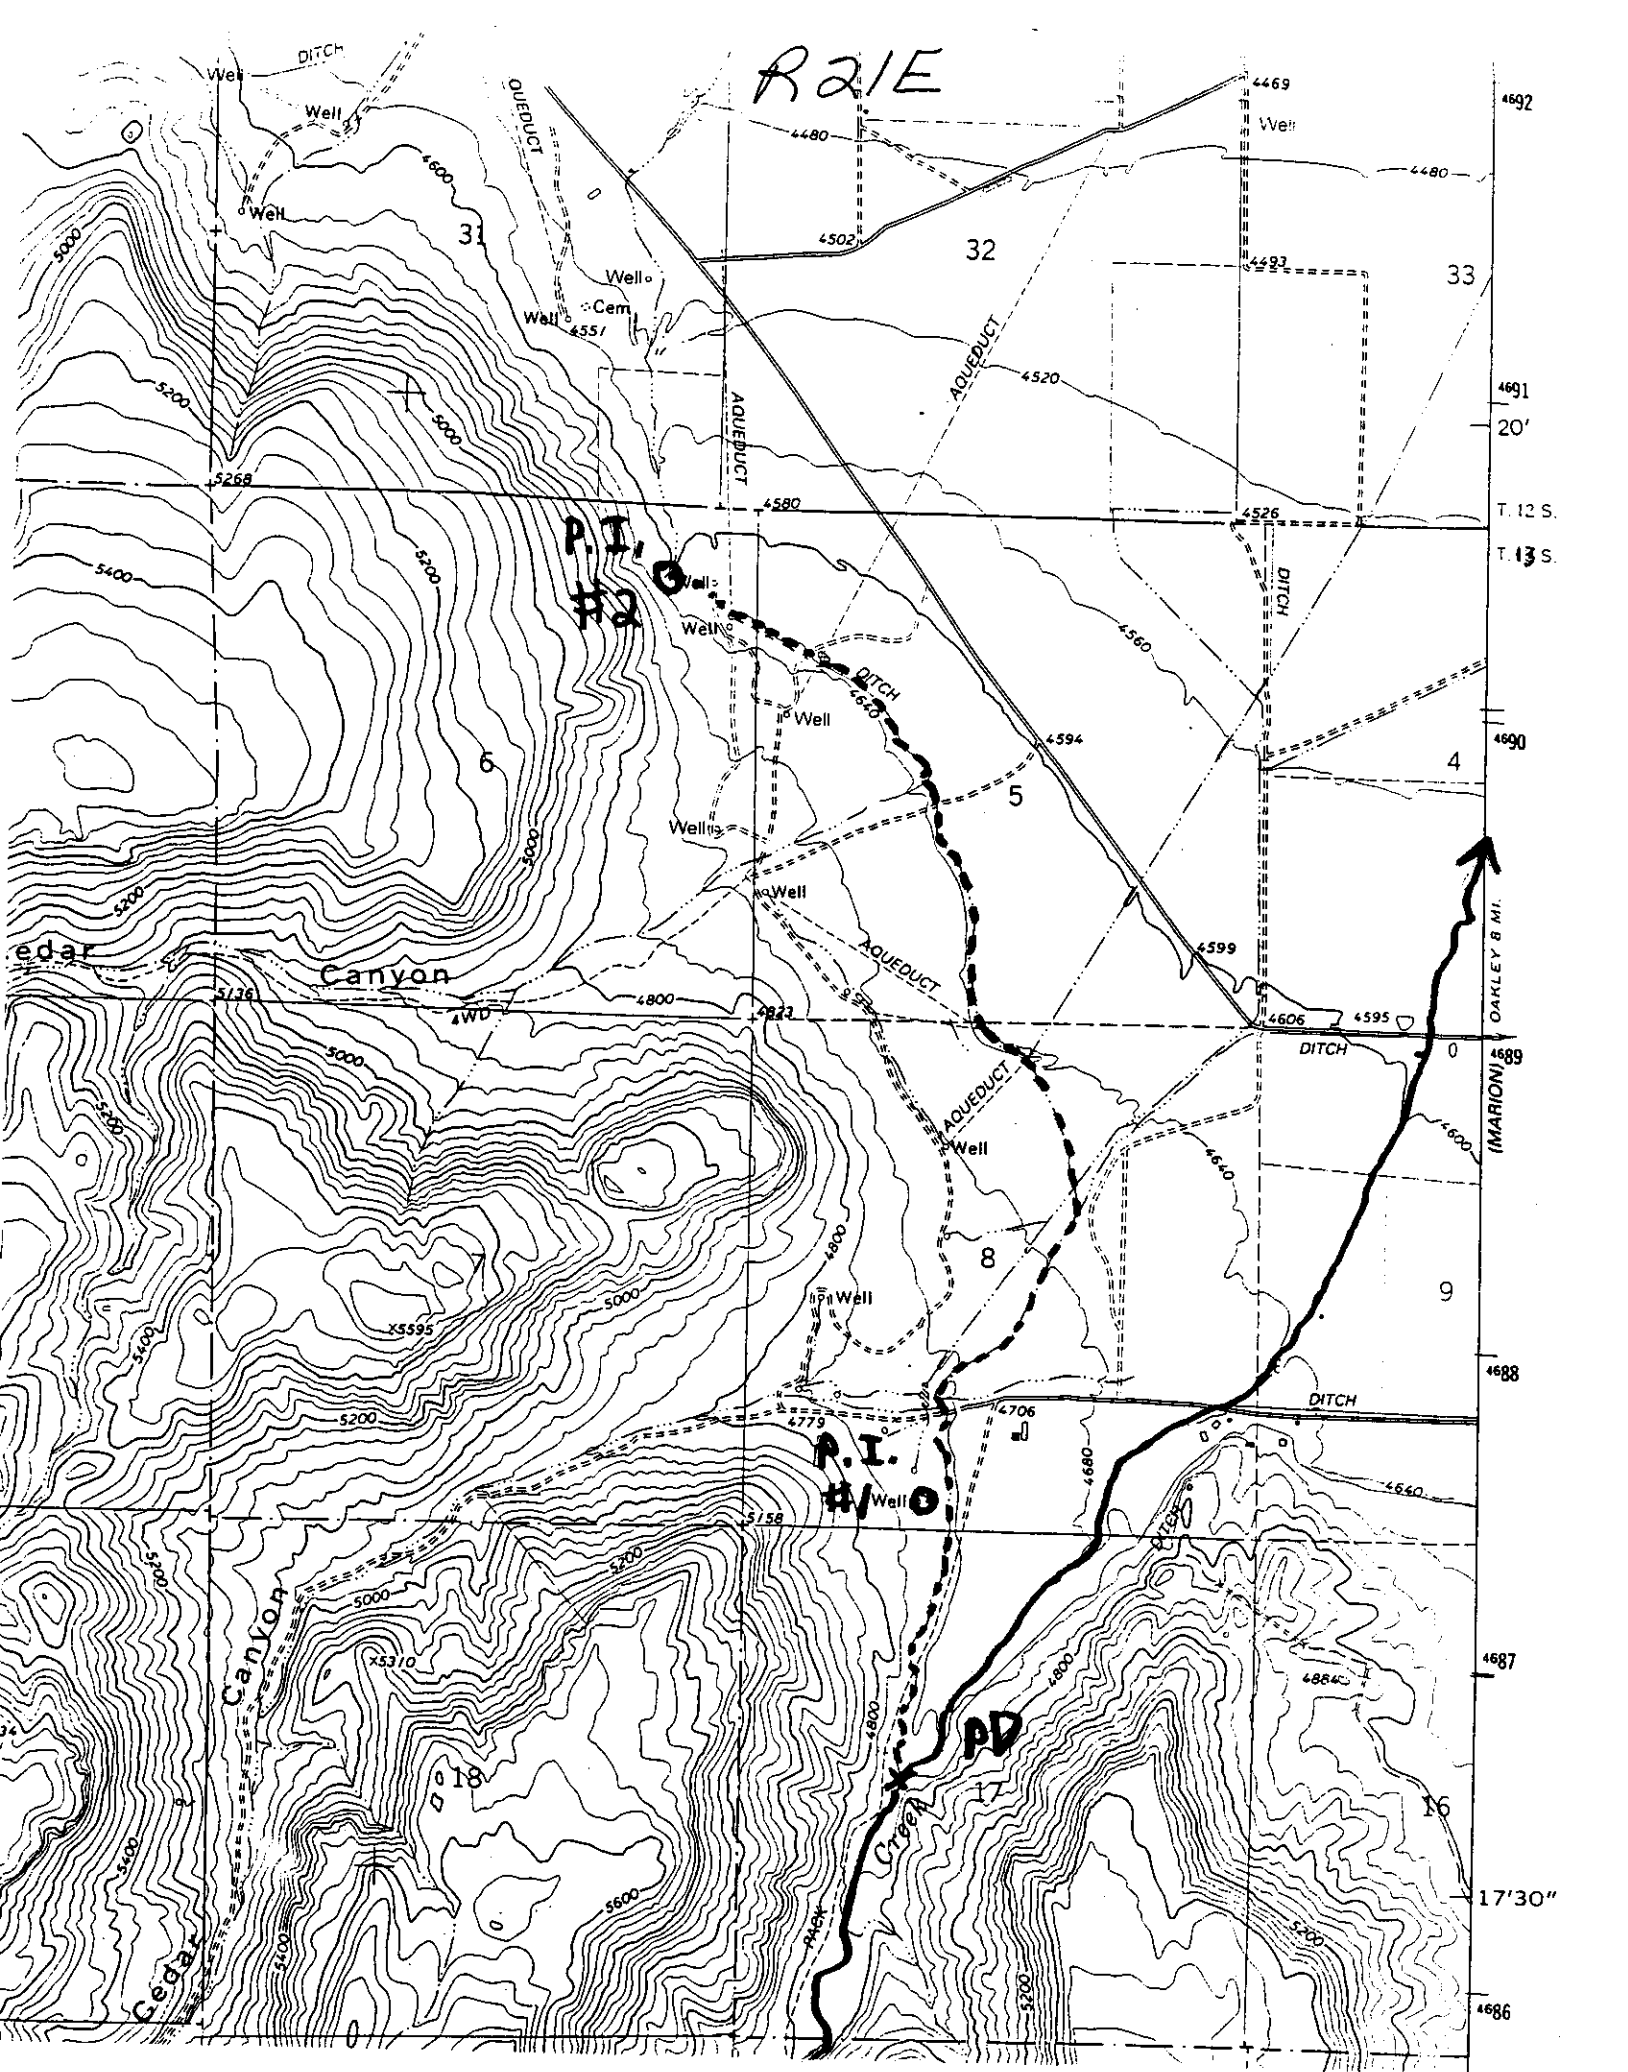

If you have any questions regarding this matter, please do not hesitate to contact me at 208-327-7944.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

Subject: RE: 45-7567

Hi, Vikie! I haven't touched that file since 7/17/2001 - I had sent correspondence to Southwest with no reply. Contacted Jim Stanton and he suggested I correspond with Don McFarland - no reply. I gave up after that. Sharla originally created the draft license back in 1997... I picked the file up in June of 2001 -

My last correspondence requested soil type, depth and width of the ditches that are used to convey the groundwater to the injection wells. This was requested so we could see if conveyance loss should be included in the license. I am at a loss with this one. Would be nice if someone would take ownership of it. I also have a file 45-7588 attached which is also in the name of Southwest Irrigation District. Good luck! Kay

Kay,

Remember this one? It's a permit for ground water recharge for Southwest Irr District and it's stuck in the Draft Active stage. I think you told me you were trying to get a response from someone (as in anyone) about possible conveyance losses, and couldn't get the info you needed. We're supposed to have our PDR out the end of February so I thought I'd see if you'd heard anything at all.

Southwest's atty is Bill Parsons and I'm wondering if it would be appropriate for me to send him a letter?

Hancock, Vikie

From: Hancock, Vikie
Sent: Monday, November 03, 2003 12:26 PM
To: Keen, Shelley
Subject: 45-7567

Shelley,

We're getting close to preparing our Preliminary Dir Rept for basin 45. There was an SRBA claim based upon the above permit and I see that 45-7567 still has a status of DRAFT LICENSE. I've looked in PowerDocs, at the microfiche and also the paper files here at Southern and the last info I can find is an application for amendment from 1997, and a Memo from Allen Merritt recommending that the amendments be approved.

Since there may be subsequent info in the file that I don't have access to, could you please check to see if there is a possibility that a license will be issued soon, or if there is a concern that will hold it up long enough so that it should not be included in this B45 Director's Report?

Thanks, Vikie

Total Acres: 0

Conditions of Approval:

1. R04 Use of water under this water right will be regulated by the watermaster of State Water District No. &DISTRICT.

IDAHO DEPARTMENT OF WATER RESOURCES

Water Right Report 45-7567

2. R43 The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.

Remarks:

1. General This right is subject to the agreement dated 4/13/85 between the right holder and Cottonwood Water Users Assn. to the extent such agreement covers matters within the jurisdiction of the Department of Water Resources.^^ Permanent measuring devices that are capable of measuring the flow into the well and the total volume of water injected must be maintained at each injection well.^^ Two injection wells are located in the NENE, Section 6 and one injection well is located in the SESW, Section 8.^^ The discharge of water into injection wells must be authorized by separate injection well permits.^^ The Director retains jurisdiction to require a bypass flow for maintenance of fish habitat.^^ Diversion of water under this right shall be limited to a maximum of 132 days during each calendar year.^^ This right is for the diversion of waters at times when those waters are not diverted to fill rights having priority dates earlier than the date of this right.^^

DATE: May 6, 1997

TO: Amendment of Permits 45-07567 and 45-07588
In the Name of: Southwest Irrigation District

SUBJECT: Review and Recommendation

Both permits are for groundwater recharge. Permit 45-07567 has a season of use from 3/1 to 7/10. Permit 45-07588 has a season of use from 2/1 to 5/31. Both amendments request that the season of use be extended to year around use (1/1 to 12/31) since the present seasons have been found to be too restrictive. Water has been found to be available during the non permitted season for recharge.

I understand that when permit 45-07567 was initially processed it was protested and through that process the season was reduced. Since that time I understand that the protestants and the permit holder have entered into an agreement (1995) that further defines &/or protects the rights of the prior appropriators to divert water. The agreement seems to have resolved earlier concerns.

RECOMMENDATION

I recommend that both amendments be approved and priority dates advanced to the date of the amendments. (In reality, I do not see that the advancement of priority means much since there should not be any subsequent appropriators).

STATE OF IDAHO
 DEPARTMENT OF WATER RESOURCES
APPLICATION FOR AMENDMENT OF A PERMIT

 Applicant SOUTHWEST IRRIGATION DISTRICT Phone 208-678-8382
 Address Box 686, Burley, Idaho 83318

 I am the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho No. 5-7567, and request that the permit and permit map be amended and/or changed as follows:

 Purpose of Amendment: Change point of diversion Add point of diversion
Change place of use Change nature of use X Change period of use Other

 1. Point of diversion: 1/4 1/4 1/4 Section , Township , Range , B.M.,
 County of . Other points of diversion
See application for permit attached

2. Period and nature of use: (irrigation, domestic, stockwatering, industrial, etc.)

 Amount 30 cfs for recharge purposes from 1-1 to 12-31 (both dates inclusive)
(cfs or more feet per acre-foot) (water use) (Begin month) (End month)

 Amount for purposes from to (both dates inclusive)
(cfs or more feet per acre-foot) (water use) (Begin month) (End month)

 Amount for purposes from to (both dates inclusive)
(cfs or more feet per acre-foot) (water use) (Begin month) (End month)

 3. Place of use or land to be irrigated: See application for permit attached.

T W P	R S E	S E C	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	

 Total number of acres to be irrigated =

4. a. Who owns the property at the point of diversion? B. L. M., Clyde Goodrich and Ore-Ida
 b. Who owns the land to be irrigated at the place of use? N/A Foods
 c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: Verbal approval - written approval pending.

Complete the following map by showing land and point of diversion as proposed by this amendment.
 Show 1/4 1/4, section, township, range and ditches. (the smallest subdivision represents 40 acres)

Scale: 2 inches equal 1 mile

I hereby request approval of this change subject to the fact that no one will be injured by the change, and that the change will be made at my own risk.

Signed this 27 day of Jan., 19 97.

☒ Photo of Diversion and System Attached
(required for all but single household domestic groundwater and stockwater)

System Description (continued)

3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

Concrete headgate on Cottonwood Cr. can be adjusted to push water around a rock check and thru another headgate, Parshall Flume to an earth ditch on the west side of the creek. This ditch mainly carries irrigation rights. About 1/2 mile below the PID, a headgate on the west side of the ditch can be opened to allow water to flow into a pond. At the west end of the pond, a screened inlet with USGS measuring station feeds water into an old unused irrigation well via a buried pipeline. Ditch continues in a northwesterly direction to a pond. A pipeline covered with gravel feeds into each of two old wells at the edge of the pond. Both wells have USGS flow ☐ See Remarks on page 4 for continuation meters.

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. Measurements:

Measured at both injection wells by permanently-installed USGS equipment. Figures for Site #2 are a total for the 2 injection wells at this site.

E. FLOW CALCULATIONS

☒ Additional Computation Sheets Attached

1. Measured Method:

Highest total reading was June 9th/10, 1995, when a rate of 17.1 cfs was being injected. Recommend this amount.

2. Alternate Method for Checking Purposes:

F. PUMP EFFICIENCY DATA (Optional)

Discharge Pressure: _____ psi x 2.31 = _____ ft (1); Dynamic pumping level: _____ ft (2)

Total Head: (1) + (2) = _____ (3)

: Flow rate: _____ cfs (4)

Water HP: (3) x (4) ÷ 8.8 = _____ (5)

Meter Input KW: 3.6 x _____ KH x _____ CTR or _____ MULT x _____ PTR x _____ N/ _____ T = _____ (6)

Meter Input HP: (6) x 1.34 = _____ (7)

Panel Input KW: _____ Ave PF x _____ Ave Volts x _____ Ave Amps x .001732 = _____ (6)

Panel Input HP: (6) x 1.34 = _____ (7) Efficiency: (5)/(7) x 100 = _____ %

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$ _____

$V_{O.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$ _____

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{O.R.} =$ _____

2. Volume Calculations for Other Uses:

USGS data shows 1564 AF injected in 1995.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Water supply for injection depends on the snow pack in Spring weather. In dry years or when early irrigation water is needed, there may not be any water available for injection. This year appears to be the best year since proof was filed for injection to occur. Recommend volume injected in 1995. Injection site on Big Cedar Canyon was never developed.

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Groundwater Recharge	3-1	7-10	17.1	1564
Totals:			17.1	1564

2. Recommended Amendments

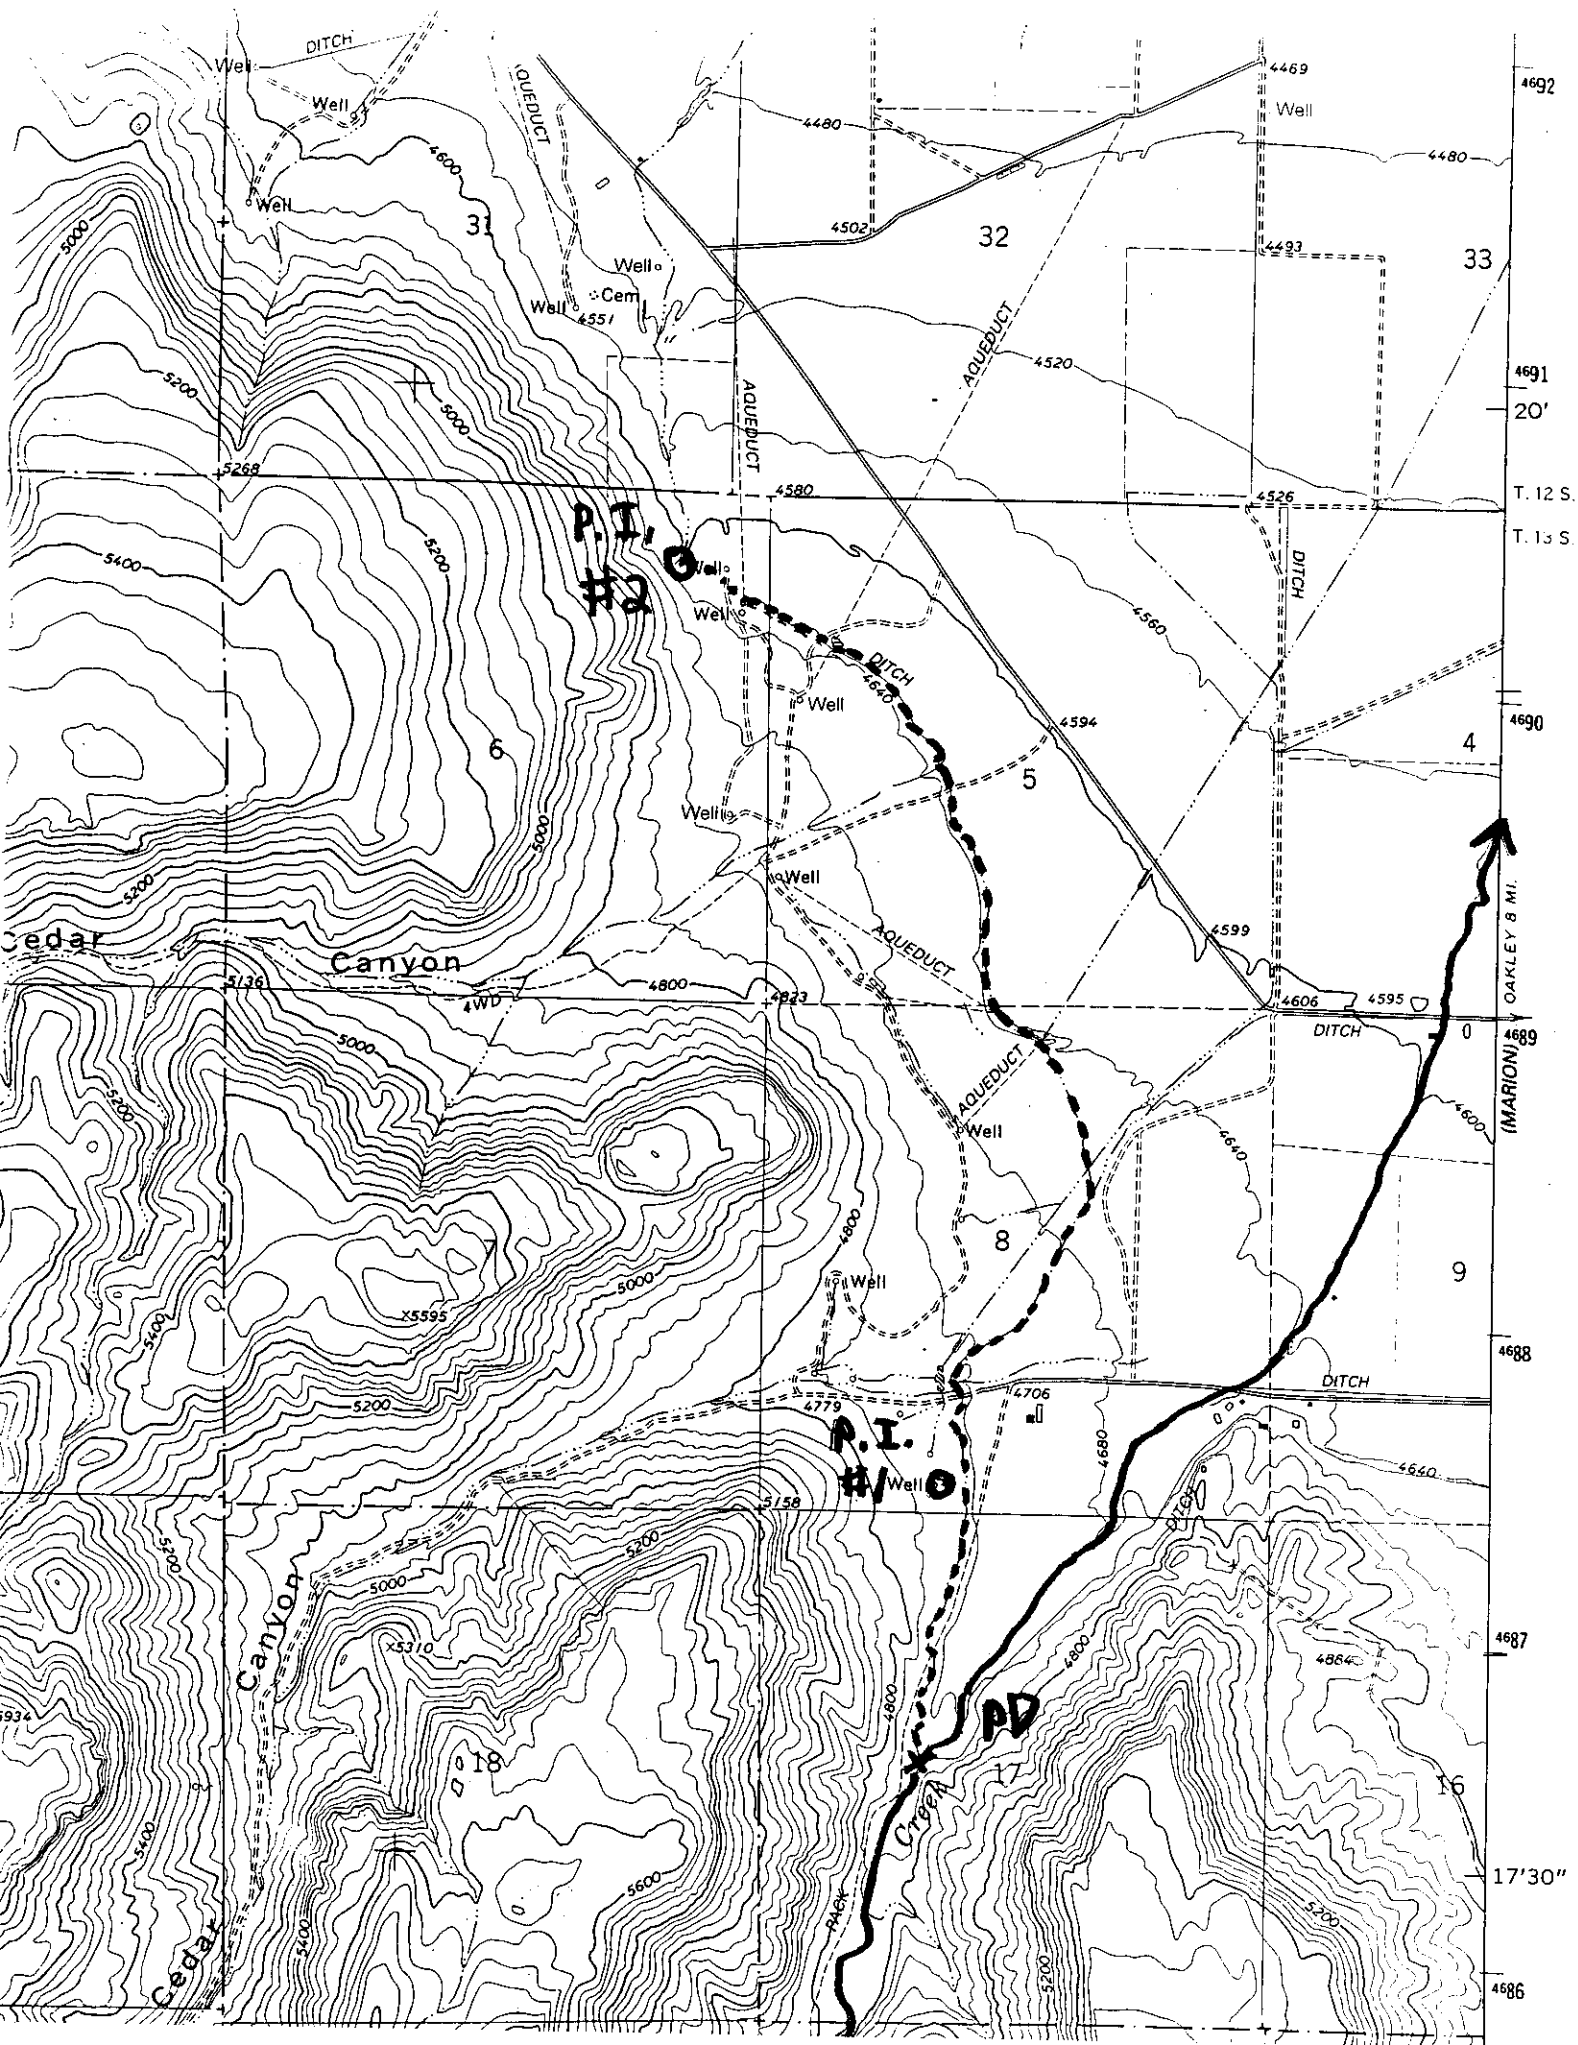

- ☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☒ None
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other

Re: Application for Permit No. 45-7567

Gentlemen:

Enclosed is a copy of the application and a draft of the proposed conditions of approval as discussed in our conference on April 10, 1985.

Conditions 1 and 2 specifically address concerns which were discussed at the conference. Conditions 3, 4, and 5 are standard conditions applied by the Department on permits within watermaster districts and where diversion works are on lands not owned by applicant. Conditions 6 and 7 are special conditions which are proposed for this application.

Please advise me if these conditions are sufficient to resolve your protest or if you have any questions.

Very truly yours,

Loren D. Holmes
Southern Region Supervisor

Encl:

APPLICATION FOR PERMIT 45-7567

PROPOSED CONDITIONS OF APPROVAL

- 1) This permit is for the diversion of flood waters at times when those waters are not diverted to fill rights having priority dates earlier than the date of the permit.
- 2) This permit is subject to the agreement dated _____ between the permit holder and protestants to the extent such agreement covers matters within the jurisdiction of the Department of Water Resources.
- 3) The issuance of this permit in no way grants any right-of-way or easement across land of another.
- 4) Use of water under this permit is subject to control by the Watermaster of State Water District No. 45-K, Cottonwood Creek.
- 5) A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works.
- 6) Permanent measuring devices must be installed at each injection well which are capable of measuring the flow into the well and the total volume of water injected.
- 7) The discharge of water into injection wells must be authorized by separate injection well permits.

NOTICE OF HEARING

AND/OR CONFERENCE

On February 27, 1985, the above named Applicants, filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On March 12, 1985, the Department received a protest against the approval of said application from Harold Cranney. Additional protests were received from Delroy Mitton, Sidnee Faye Mitton, Harold Cranney Jr., Kim Cranney, and William A. Persons, attorney for Harold and Kerma Cranney.

The Department has set the matter of protest for hearing for 11:00 AM, April 10, 1985, in the Council Room of the Burley City Hall, 1401 Overland, Burley Idaho.

The hearing will be held in accordance with chapter 2, title 42, of the Idaho Code and the adopted rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded to all parties to respond and present evidence and argument on all issues involved.

Dated this 26 day of March, 1985.

Primary Concern —

- Woodsman will do extra cfs of distribution
we are increasing
- 1 Extra cfs of distribution
 - 2 Participation of cfs of improved diversion facilities
cost for both of these items
 - 3 Change source to flood water

STATE OF IDAHO DEPARTMENT OF WATER RESOURCES APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant Goldens Valley Phone 572-172

Post office address Box 100, Big Cedar Canyon

2. Source of water supply Big Cedar Canyon which is a tributary of Snake R.

3. Location of point of diversion is 1/4 of 1/4 of Section 36 Township 33

Range 12 S. B.M. 12 County Blaine additional points of diversion if any

4. Water will be used for the following purposes:

Amount 30 cfs for Group purposes from 10/1/85 to 12/31/85 (both dates inclusive)

Amount 5 cfs for irrigation purposes from 10/1/85 to 12/31/85 (both dates inclusive)

Amount 10 cfs for irrigation purposes from 10/1/85 to 12/31/85 (both dates inclusive)

Amount 10 cfs for irrigation purposes from 10/1/85 to 12/31/85 (both dates inclusive)

5. Total quantity to be appropriated:

a. 30 CFS cubic feet per second and/or b. 10 acre-feet per annum

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. to divert water into the main canal which will be maintained to inject approx 100 cfs of water into the main canal

b. Height of storage dam 10 feet; active reservoir capacity 10 acre-feet; total reservoir capacity 10 acre-feet; materials used in storage dam 10 tons

Period of year when water will be diverted to storage 10/1/85 to 12/31/85 inclusive

c. Proposed well diameter is 12 inches; proposed depth of well is 10 feet

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 10 years (minimum 1 year - maximum 5 years)

8. Description of proposed uses:

a. If water is not for irrigation (1) Give the place of use of water 10/1/85 to 12/31/85

Range 12 S. B.M. 12 County Blaine

(2) Amount of power to be generated 10 horsepower

(3) List number of each kind of livestock to be watered 10

(4) Name of municipality to be served 10 or number of families to be supplied with domestic water 10 KW - Kirk Woodhouse, 3-11-85

(5) If water is to be used for other purposes describe 10

[illegible]

c. Describe any other water rights used for the same purposes as described above.
