Counsel for the United States of America

**IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS**

In Re SRBA	)	Subcase No. 37-19880
	)	
Case Number: 39576	)	AFFIDAVIT OF DANNY D. KING
_____	)	

State of: IDAHO
County of: BLAINE

Danny D. King, being first duly sworn upon oath, deposes and says:

1. I am currently employed by the United States Department of Agriculture, Forest Service (Forest Service), as the Facilities Manager on the Sawtooth National Recreation Area

(SNRA) of the Sawtooth National Forest. I have been employed by the Forest Service for 26 years.

2. As part of my assigned duties and responsibilities as the Facilities Manager on the SNRA I am familiar with use at Russian John Guard Station.

3. I have reviewed the reserved water right claim, as amended and attached as Exhibit 1, submitted by the Forest Service for Russian John Guard Station (Claim).

4. The Claim was prepared by Forest Service personnel as part of their normal duties. I verified the legal locations as set forth and described in Exhibit 1 and have personal knowledge that the location of the point of diversion and point of use and source of the water supply are true and correct as described in Exhibit 1.

5. The Claim is situated wholly within National Forest System lands. It is currently utilized by the Forest Service at Russian John Guard Station to manage National Forest System lands.

6. The Claim is necessary for the administration of the National Forest pursuant to the Organic Administration Act of 1897, 16 U.S.C. § 475 *et seq.*, for the purposes of securing favorable conditions of water flow and to furnish a continuous supply of timber.

7. The United States filed this Claim for use in association with Russian John Guard Station, an administrative site located in the SNRA of the Sawtooth National Forest. The administrative site includes a guard station/residence building, a bath house, a warehouse, outbuildings and other capital improvements. The site is permanent employee housing. It is used every year. Personnel utilize water at this site for administrative purposes. Occupation and use of Russian John Guard Station is essential to the overall administration of Forest Service programs on the SNRA and this part of the Sawtooth National Forest. Administration of NFS

programs and presence in the area protects the forest from depredations and destruction. This ensures the continued viability of the resources on surrounding federally reserved NFS land and directly contributes to watershed protection, preservation of timber stands and to the maintenance of and improvement of watershed conditions, timber production and favorable conditions of water flow.

8. Based upon personal experience and knowledge, discussions with Forest Service personnel and review of relevant Forest Service records, including but not limited to, on-site inspection records, water has been historically, and is presently utilized at Russian John Guard Station in quantities up to and including 0.02 c.f.s. during the period of January 1 through December 31, as described in Exhibit 1.

9. Based upon the forgoing, I have personal knowledge of the following elements of the reserved water right claim:

a. The name and address of the claimant is:
