August 15, 2002

DESCRIPTIVE SUMMARY

This is an additional Supplemental Director's Report Regarding Partial Decree for Water Right Claim Nos. 85-11143, 85-11144, and 85-11145 submitted by the Director of the Idaho Department of Water Resources (IDWR). The first *Supplemental Director's Report* for these rights was submitted to the Snake River Basin Adjudication (SRBA) Court on June 8, 2001.

DISCUSSION

The SRBA Court entered its partial decrees on December 29, 2000 for Water Right Claim Nos. 85-11143, 85-11144, and 85-11145. On or about February 8, 2001, the Court received correspondence from the decree holders (the Stucks) pertaining to the aforementioned partial decree.

The Director of IDWR submits for filing with the Court, this Supplemental Director's Report Regarding Partial Decree for Water Right Claim Nos. 85-11143, 85-11144, and 85-11145. IDWR provides the following information:

The Stucks submitted all three water right claims in 1988. The claims are summarized in the following table:

Claim No.	Claimed Source	Claimed Point of Diversion	Claimed Place of Use
85-11143	Ground water	NWSW, S26, T30N, R3E	NWSW, S26, T30N, R3E
85-11144	Spring	NWSW, S26, T30N, R3E	NWSW, S26, T30N, R3E
85-11145	Ground water	NWSW, S26, T30N, R3E	NWSW, S26, T30N, R3E

Each of the claims describes the same tract as the point of diversion and place of use.

There are two separate domestic uses from the same well (85-11143 and 85-11145) and one stockwater use from a spring source (85-11144).

IDWR investigated the claims in 1993 and found the points of diversion and places of use to be located in the SWNW, not the NWSW as claimed, based on information provided by the Idaho County Assessor. IDWR's recommendations were based on this investigation.

The Stucks corresponded with IDWR in July 2001, indicating they had found an error in their warranty deed as to the legal description of their property. The Stucks had received a corrected warranty deed from the Idaho County Assessor, and submitted a copy of the corrected deed, along with a plat map indicating the location of the spring in question. Given this new information, IDWR now agrees that the elements of these water rights should be described per the attached *Amended Director's Reports*.

Respectfully submitted this 15TH day of August, 2001.

Roxanne Brown
Senior Water Resource Agent
