EXPLANATORY MATERIAL: BASIS OF CLAIM - License BASIS OF CLAIM - Permit

The right holder shall use the full allotment of appurtenant surface water rights in conjunction with ground water diverted under this right.
If the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use, this right to divert groundwater shall not be used without an approved transfer pursuant to Section 42-222, Idaho Code, or approval of the Department if a transfer is not required.
Use of water under this water right will be regulated by the watermaster of State Water District No. 37-U.
This right is for the use of trust water and is subject to review 20 years after the issuance of the permit to determine availability of water and to re-evaluate the public interest.
This right when combined with all other rights shall provide no more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor exceed a combined annual maximum diversion volume of 1571.5 af at the field headgate for the lands above.
Right 37-2676 is also diverted through the points of diversion described above.
