ATTACHMENT A

63-303

1. Ownership, Quantity, Place of Use. The Idaho Department of Water Resources (IDWR) has recommended this right in the name of the United States Department of Interior, Bureau of Reclamation (Reclamation). However, Farmers Cooperative Ditch Company (Farmers) is the owner of 1,227 acre feet of this water right based upon the fact that this portion of the right was perfected by beneficial use on lands within Farmers' boundaries, and is therefore appurtenant to those lands. Farmers' position is in accordance with Idaho Law, the Reclamation Act of 1902, 43 U.S.C. § 372, and is supported by case law holding that a water right developed under the Reclamation Act is appurtenant to the land, and the landowners are the owners of the water right. *Ickes v. Fox*, 300 U.S. 82 (1937). Consistent with these authorities, Farmers has filed SRBA Claim no. 63-303A, seeking a decree of 1,227 acre feet of this water right in Farmers' name, appurtenant to lands within Farmers' boundaries. Issuance of such a decree to Farmers will require that 1,227 acre feet not be included in the decree for Water Right Number 63-303.

In the alternative, at a minimum under these authorities, Farmers is the beneficial owner of the water right and Reclamation holds only nominal legal title. If the court decrees the water right to Reclamation in this manner the decree must state that Reclamation holds legal title in name only, and Farmers is the beneficial owner of 1,227 acre feet, appurtenant to lands within Farmers' boundaries.

2. Purpose of Use. In order to properly define and administer this water right, there must be: a remark which provides that any change to the elements of this water right requires a transfer pursuant to Idaho law; a remark which requires Farmers' approval of any change to Farmers' portion of this right (1,227 acre feet); and a remark which requires that uncontracted space be made available for irrigation use.
