DISTRICT COURT-SRBA
TWIN FALLS CO., IDAHO
IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA Case No. 39576)

Subcase Nos.:)

37-20810, 37-20811,)

37-20812, 37-20813,)

37-20814, 37-20815,)

37-20816 and 37-20817.)

**MOTION FOR LATE OBJECTIONS
AND MOTION TO ALTER OR AMEND**

Comes now, the undersigned, on behalf of Kelvin Jones and Ms. Alma Jones and hereby moves and petitions the SRBA Court to consider the late objections and motion to alter or amend being filed with regard to the following recommended water rights: 37-20810, 37-20811, 37-20812, 37-20813, 37-20814, 37-20815, 37-20816 and 37-20817. Petitioners Kelvin Jones and Alma Jones are requesting reconsideration of the maximum allowable diversion rate under the above combined rights.

As outlined in the attached Standard Form #1 Objections and accompanying narrative, Kelvin Jones and Alma Jones object to the findings in a 1987 beneficial use field exam which measured the system diversion capacity during a time when the entire system was not operating. They are requesting that they be allowed to have the system capacity independently evaluated in the Spring of 2003 by Brockway Engineering and to have the diversion capacity adjusted accordingly once the entire system is operating.

DATED the 23rd day of January, 2003.

HEPWORTH, LEZAMIZ & JANIS, CHARTERED

Case No. 39576)

STANDARD FORM 1
OBJECTION

Please fill in the following information:

B. NAME AND ADDRESS OF PERSON OBJECTING

Name: Alma JonesAddress: 617 Yellowstone DriveJerome, ID 83338Daytime Phone: 208-324-4884

Name & Address of Attorney, if any:

John Lezamiz133 Shoshone Street North, P.O. Box 389Twin Falls, ID 83303

C. CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTOR'S REPORT

Name: Alma JonesAddress: 617 Yellowstone DriveJerome, ID 83338

D. I object to the following elements as recommended in the Director's Report. (Please check the appropriate box(es)).

1. ☐ **Name and Address**

Should be: _____

2. ☐ **Source**

Should be: _____

3. ☒ **Quantity**

Should be: Total Combined Diversion Rate = 3.86 cfs

Combined Right No(s): 37-20812, 37-20814, 37-20816

4. ☐ **Priority Date**

Should be: _____

5. ☐ **Point(s) of Diversion**

Should be: _____

6. ☐ **Instream Flow Description**

Should be: _____

7. ☐ **Purpose(s) of Use**

Should be: _____

8. ☐ **Period of Year**

Should be: _____

9. ☐ **Place of Use**

Should be: _____

11. **I object because:**

☐ This water right should not exist.

☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S): _____

Narrative in Support of Standard Form 1 - Objection

Subcase

37-20810, 37-20812, 37-20814, 37-20816

Attachment A

Ms. Alma Jones wishes to object to the recommended order for Water Right(s) 37-20810, 37-20812, 37-20814, 37-20816. As stated on Page #2 of the Standard Form 1, Alma Jones objects to the recommended combined diversion rate. It is Alma Jones' opinion that the total combined diversion rate should be 3.86 cfs when combined with Water Right Nos.: 37-20810, 37-20812, 37-20814, 37-20816.

The four rights listed above are split portions of Water Right Nos.: 37-2531A, 37-2532B, 37-2804B, and 37-8690. The other four rights created from these split rights are: 37-20811, 37-20813, 37-20815, 37-20817 which are under the name Kelvin Jones. All of the split water rights are diverted from a single groundwater well located in the SE ¼ SW ¼ SE ¼ Section 31, Township 06 South, Range 17 East, Lincoln County.

According to the adjudication recommended right reports, water right(s) 37-20810, 37-20812, 37-20814, 37-20816 are limited to a combined diversion rate of 2.66 cfs which is less than the sum of the diversion rates of 3.72 cfs for the four rights. Our research has indicated that during the licensing of 37-8690, a field exam completed by Darren Knuteson on 6/15/1987, indicated a flow measurement of 5.22 cfs from the well which is the point of diversion for all of these rights. From this point forward, this flow rate is listed as the "diversion capacity" even though the field exam notes that the entire system was not fully operating on the day of the exam. Based on the exam, the system is comprised of 1-800' pivot, 6-32 bird hand lines, 2-solid set corners, and 9-¼ mile wheel lines. At the time of the exam, the pivot, corners, 4 hand lines, and 7 wheel lines were operating. Based on this note in the field exam, an additional 2 hand lines and 2-¼ mile wheel lines should have been operating to quantify the diversion capacity of the well.

The adjudication recommendation bases the total diversion allowed under both sets of 4 water rights on the proportional split of 5.22 cfs with 2.56 cfs allocated to water right(s) 37-20811, 37-20813, 37-20815, 37-20817 and the remainder 2.66 allocated to water right(s) 37-20810, 37-20812, 37-20814, 37-20816. However, if the diversion capacity of this well and system is greater than 5.22 cfs, Kelvin Jones & Alma Jones should be entitled to a higher diversion rate not exceeding the total combined rate of 7.58 cfs for the eight rights.

It is the desire of Alma Jones to have the capacity of the well independently tested by Brockway Engineering as certified water rights examiners in the Spring of 2003 to verify the capacity of this diversion with the system fully operating.

On recommended right 37-20816, Alma Jones also wishes to object to the acreage allowed under this right which should be 25.5 acres as shown on the Standard Form 1 Objection. Alma Jones believes the 25.5 acres more closely represents the historical beneficial use of this right.
