Headgate

A25-00056F/A25-00167 Summary 9/18/03

- 1) Ownership is correct.
- 2) POD is "Gate 6 on the Anderson Canal."
This is an exchange w/ Progressive Irrigation, owner will mail copy of exchange to Michael H. See A25-00056D for similar exchange agreement. Progressive delivers Snake River water to claimant via Anderson, uses Willow Creek water to deliver to other Progressive users. Claimed POD appears to be Snake River POD of Anderson Canal, I did not go clear up to that location but GPS'd the headgate which is in 3N 39E 12 SW SE NE.
I recommend confering w/ legal staff regarding proper description given the exchange.
- 3) POD is correct, see notes on layout.
- 4) Overlap: I forgot to ask but I believe there may be an Enterprise overlap. Ditch carries Enterprise? Progressive water to other users also.
- 5) Contested Claim: On the phone claimant

A25-00056 F / A25-00167 Summary 9/18/03 p2

challenged validity of A25-00056D but during the interview acknowledged Bolinders have Willow Creek Water. I recommend careful review of split history.

6) Photos. 1 of headgate on Anderson canal,
2 of POU.
