X.

That the defendant, Consolidated Wagon and Machine Company, is a corporation organized and existing under and by virtue of the laws of the State of Utah, with its principal place of business at Salt Lake, Utah.

XI.

That the First National Bank of Brigham City, Utah, is a corporation organized and existing under the laws of Congress relating to banks and banking, having its principal place of business at Brigham City, Utah.

XII.

That the plaintiff, Albion-Idaho Land Company is a corporation duly organized and existing under and by virtue of the laws of the State of California, having its principal place of business at San Francisco, California.

XIII.

That this is an action between citizens of different states and that the amount involved herein exceeds the sum of \$3000.00, exclusive of interest and costs.

XIV.

That Raft River is an inter-state stream arising in the Raft River Mountains, having its primary sources in certain springs near Lind, Utah, and near Moulton, Idaho, meandering through the southern part of Cassia County, Idaho, and the northern part of Box Elder County, Utah, and thence flowing in a northerly direction through Cassia County and emptying into the Snake River near Bonanza Bar. That those creeks in Box Elder County, Utah, known as Basin Creek, Mahogany Creek, Johnson Creek, George Creek, Oliver Creek, together with the following named creeks in Cassia County, Idaho, known as Long Creek, Short Creek, Pole Creek, Granite Creek, Cottonwood Creek, Kane Creek, Nibs Creek, Darby Creek, Coe Creek, Meadow Creek, Point Springs, Jim Sage Creek, Stinson Creek, Connor Creek, Green Canyon Creek, Antelope Springs Creek, Warm Springs Creek, North Fork of Cassia Creek, Upper South Fork of Cassia Creek, Lower South Fork of Cassia Creek, Blacksmith Fork Creek, Rock Springs Gulch Creek, Middle Fork of Cassia Creek, Red Rock Creek, Parke Creek, and Cassia Creek, are the tributaries of Raft River, and the waters of said creeks together with the waters of various and divers springs near and along said Cassia Creek and Raft River, contribute, furnish and supply the waters of, and are tributary to, and are in truth and in fact a part of said Raft River.

XV.

That a certain stream commonly known as Clear Creek, which said stream has been separately decreed in an action in this court in the case of Albion-Idaho Land Company vs. Settlers Land & Water Company, et al, at times contributes to the flow of Raft River and that the tributaries of said Clear Creek are West Black Pine or Kelso Creek, Round Mountain Creek and Water Canyon; that a certain creek known as Almo Creek, in its natural state, at times contributes some water to Raft River, but that said Almo Creek and its tributaries, to-wit, Grape Creek, Sythe Creek, Clyde Creek and Edwards Creek, by the terms of the decree of the state court, has been set off as a separate water district, and is separately referred to in this decree, its priorities being specifically mentioned in that portion of the decree having to

do with Almo Creek.

XVI.

That the said tributaries of Raft River above named and set out, subject to the limitations mentioned as to Clear Creek and Almo Creek, together with the waters of certain springs arising in the bed or Raft River and adjacent thereto, constitute the water supply of said Raft River, and that any and all appropriations made and water diverted from said creeks and springs heretofore mentioned constitute an appropriation and diversion from Raft River and serve to deplete the flow thereof and interfere with and diminish the supply of water available for diversion and beneficial application by those parties owning land irrigated from said Raft River by means of diversions made directly from Raft River, and therefore, all diversions made from each, any and all of said tributary streams, with the exception of Almo Creek and the limitation upon Clear Creek, are hereby ordered, adjudged and decreed to be diversions made from the waters of Raft River, and the naming of the streams from which said diversions are made in this decree shall be construed only as fixing the point of diversions, and not as conferring an independent water right from the stream mentioned, but that such water rights shall be deemed a water right from Raft River as of the priority named and inferior only to all priorities on Raft River and superior to junior priorities of said stream.

XVII.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the use of the waters of, or to be diverted from Clear Creek, or its tributaries are separate and distinct from and are not inferior and subject to any right herein decreed to the use of the waters of, or to be diverted from Raft River and its said tributaries, and that nothing in this decree contained shall be construed to alter, change or modify the rights of the users of water of or diverted from Clear Creek under the terms of the decree rendered by this court in the case of Albion, Idaho Land Company vs. Settlers Land & Water Company, et al, but that the rights therein granted are hereinafter expressly confirmed.

XVIII.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED That all of the lands mentioned, described and set out in this decree are semi-arid in character and without irrigation are incapable of producing ordinary agricultural crops; that the duty of water for the irrigation of said land is hereby established and fixed at one-fiftieth ($1/50$ th) of a second foot per acre; and that, notwithstanding the fact that in some instances lands hereinafter described have decreed water rights of different priorities, the maximum amount which may be diverted by any appropriator at any one time under any and all of the priorities hereinafter set out shall be, and is hereby, limited to one-fiftieth ($1/50$ th) of a second foot of water per acre for the land described in this decree, and that the use of the water herein mentioned is limited and confined to the land described in this decree, and that at all times when the water hereby decreed is not being actually used upon the land to which the same is hereby decreed, the said water must be permitted to flow down the stream for the benefit of junior appropriators.
