) FOR WATER RIGHTS: 31-00066A,
) 31-00066B, 31-11789 and 31-11790

I. FINDINGS OF FACT

Claims were filed for water rights 31-00066A and 31-00066B pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources examined the water system for this reporting area. The *Director's Report* contained recommendations for the elements of these water rights.

All *Objections* to the water right claims were resolved by stipulation of the parties with *Standard Forms 5* which resulted in combining the parent rights 31-00066A and 31-00066B and then redividing the rights into assigned split right numbers 31-11789 and 31-11790. All parties to the subcase and IDWR are signatories to the *Standard Forms*.

The elements of these water rights as stipulated to in the *Standard Forms 5* differ from the original *Directors Report* for 31-00066A and 31-00066B to accommodate the division of the right. The new rights do not exceed the original claims. The legal descriptions were also changed to reflect the legal descriptions which accompany each of the new split rights.

II. CONCLUSIONS OF LAW

Based on the file and record herein, IT IS RECOMMENDED that water rights 31-00066A and 31-00066B **not be confirmed** in any partial or final decree. IT IS FURTHER RECOMMENDED that water rights 31-11789 and 31-11790 be **decreed** with the elements as set forth in the attached *Special Master's Recommendations for Partial Decrees*.
