I. FINDINGS OF FACT

A notice of claim was filed for this water right by the United States, USDI Fish and Wildlife Service. The Director of the State of Idaho Department of Water Resources examined the water system for this reporting area. This claim was based only on state law, and asserted a priority date of April 1, 1916. The *Director's Report* contained a recommendation for the elements of this water right.

An *Objection* was filed by the United States Fish and Wildlife Service on February 26, 2001. The *Objection* was resolved on March 19, 2002 with the filing of a *Standard Form 5*. All parties to the subcase and IDWR are signatories to the *Standard Form*. There are no unresolved objections remaining.

II. CONCLUSIONS OF LAW

The United States claimed this right under state law. There is no assertion that this right is based on a federal reservation. The United States claimed the priority date as April 1, 1916. That priority claim was investigated by IDWR and recommended in the *Director's Report*. Recommendations in *Director's Reports* have *prima facie* weight as set forth in I.C. § 42-1411(4)-(5). Where the *Director's Report* draws a conclusion as to priority date, the *prima facie* weight afforded the *Director's Report* confers a presumption that sufficient proof has been made to prevail on the issue, absent competent evidence to the contrary. If rebutted, the presumption

disappears, and the party with the benefit of the presumption retains the burden of persuasion on the issue. *State v. Hagerman Water Right Owners*, 130 Idaho 736, 947 P.2d 409, 418 (1997). The *Director's Report* conclusion on priority was not challenged.

Based on the file and record herein, IT IS RECOMMENDED that this water right be decreed with the elements set forth in the attached *Special Master's Recommendation for Partial Decree*.
