

In Re SRBA
Case No. 39576

A. Consolidated Subcase Number: 75-13316
Ident. Number: 77-11941
(Insert water right number)

**STANDARD FORM 1
OBJECTION**

B. NAME AND ADDRESS OF PERSON OBJECTING

Name and Address of Attorney, if any:

Attorney Name: ALAN G. LANCE
Attorney General
CLIVE J. STRONG
Deputy Attorney General
Chief, Natural Resources Division
DAVID J. BARBER
Deputy Attorney General

Attorney Address: Office of the Attorney General
700 W. Jefferson, Room 210
P.O. Box 44449
Boise, ID 83711-4449

Attorney Phone No. (208) 334-2400
Idaho State Bar # 2597

COPY

C. CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTOR'S REPORT

Name: United States of America, on behalf of the USDA Forest Service
Address: 550 W. Fort Street, MSC 33
Boise, ID 83724

D. I object to the following elements as recommended in the Director's Report. (Please check the appropriate box(es)).

1. ☐ **Name and Address**
Should be: _____
2. ☐ **Date of Priority**
Should be: _____
3. ☐ **Source of Water**
Should be: _____
- 4a. ☒ **Location of point of diversion**
Should be: Not Applicable. Claimant has included one quantification reference point in the description of this element. This reference point should not be described here. Rather such point, if applicable at all, should be included in the description of the quantity element.
- 4b. ☐ **Description of diversion works: Instream Flow**
Should be: _____
5. ☒ **Quantity claimed**
Should be: "The minimum amount necessary to fulfill the purposes of the Wild and Scenic Rivers Act." *Potlatch Corp. v. United States*, 134 Idaho 912, 916 (2000). The claimant has not demonstrated that the amounts claimed are the minimum amounts necessary to fulfill the purposes for the designation of this river reach in the Central Idaho Wilderness Act as a part of the Wild and Scenic Rivers System for the period of the year stated therein.
6. ☐ **Total consumptive use claimed for present and future use is:**
Should be: _____
7. ☒ **Present and future uses to which the water is or will be used**
Should be: The purpose of use must be determined in accordance with the Central Idaho Wilderness Act that designated this river segment as a part of the Wild and Scenic Rivers System. The seventy-nine mile segment from Corn Creek to Long Tom Bar was designated as a wild river.

8. ☒ **Attach the legal description of the reservation, and maps showing the existing and proposed place of use.**

Should be: The channel of the Main Salmon River as depicted on the map designated as Attachment A.

9. ☒ **Remarks**

Should be: None.

11. **I object because:**

- ☐ This water right should not exist.
☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S):

4a. Location of point of diversion

The inclusion of one quantification reference point in this element is improper because this water right describes an instream flow that does not include any points of diversion. The claimant describes the amounts claimed at the location designated as a reference point. Thus, this reference point is a part of the description of the quantity element. While it is necessary for the instream flow to be measured at some point, the claimant provides no explanation for the choice of the specific point included in its claim.

5. Quantity claimed

The Central Idaho Wilderness Act designated this seventy-nine mile segment from Corn Creek to Long Tom Bar as a wild river. This designation may affect the amount of water claimed.

The amounts stated in the table for the designated periods do not have any apparent relationship to the purposes of the Wild and Scenic Rivers Act. Nor is there any evidence that the amounts stated are the minimum amount necessary under the Central Idaho Wilderness Act that added this segment of the Salmon River to the Wild and Scenic Rivers System as a wild river.

7. Present and future uses to which the water is or will be used

The present and future purposes of use are limited to the wild river designation that Congress made for this seventy-nine mile segment of the Salmon River under the Central Idaho Wilderness Act.

8. Attach the legal description of the reservation, and maps showing the existing and proposed place of use

The place of use described in Attachment A to the Amended Notice of Claim is ambiguous. Attachment A is a map showing the drainage basin of the Main Salmon River with the channel of the Main Salmon appearing in bold. The place of use should be

limited to the channel of the Main Salmon River. The place of use should not extend to the drainage basins tributary to the Main Salmon.

9. **Remarks**

The document entitled "Quantification Proceedings—General Notice of United State's Claims" contains a section entitled "General Remarks for All United States Claims," hereinafter the "General Remarks." The General Remarks restate certain legal allegations of the United States. None of the statements in the General Remarks constitute a remark that is appropriate for inclusion in any partial decree relating to these claims because the statements do not constitute "matters as are necessary for definition of the right, for clarification of any element of a right, or for administration of the right by the director." Idaho Code § 42-1409(1)(I).

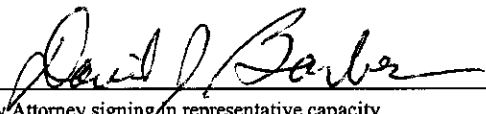

F. **VERIFICATION (Must be Completed)**

State of Idaho)
) ss.
County of Ada)

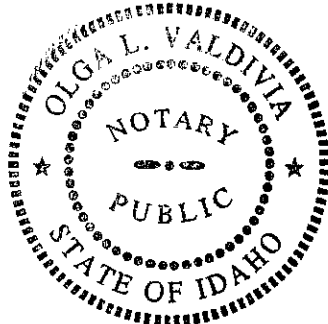

DAVID J. BARBER, Deputy Attorney General, duly sworn, upon oath, deposes and says:

That the State of Idaho, Department of Lands, in its proprietary capacity is filing this objection and that I am a Deputy Attorney General authorized to represent the State of Idaho, Department of Lands which is a party/claimant in this proceeding, as defined by I.C. § 42-1401A(1) and (7), and I have read this objection, know its contents and believe that the statements are true to the best of my knowledge.
