C. CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTOR'S REPORT

Name: United States of America, on behalf of the USDA Forest Service
Address: 550 W. Fort Street, MSC 33
Boise, ID 83724

D. I OBJECT TO THE FOLLOWING ELEMENTS AS RECOMMENDED IN THE DIRECTOR'S REPORT.

1. ☐ **Name and address**
Should be: _____
2. ☐ **Date of priority**
Should be: _____
3. ☐ **Source of water**
Should be: _____
- 4a. ☒ **Location of point of diversion**
Should be: Not applicable.
- 4b. ☐ **Description of diversion works: Instream flow**
Should be: _____
5. ☒ **Quantity claimed**
Should be: The minimum amount necessary to fulfill the purposes of the Wild and Scenic Rivers Act. *Potlatch Corp. v. United States*, 134 Idaho 912, 916 (2000).
6. ☐ **Total consumptive use claimed for present and future use is:**
Should be: _____
7. ☒ **Present and future uses to which the water is or will be used**
Should be: The purpose of use must be determined in accordance with the Central Idaho Wilderness Act that designated this river segment as a part of the Wild and Scenic Rivers System. The forty-six mile segment from the mouth of the North fork of the Salmon River to Corn Creek was designated as a recreational river.
8. ☒ **Attach the legal description of the reservation, and maps showing the existing and proposed place of use.**
Should be: The channel of the Main Salmon River as depicted on the map designated as Attachment A.
9. ☒ **Remarks:** Should be: None.
11. **I object because:**
 - ☐ This water right should not exist.
 - ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S):

4a. Location of point of diversion: The inclusion of any quantification reference point in this element is improper because this water right describes an instream flow that does not include any points of diversion.

5. Quantity claimed: The claimant describes the amounts claimed at the location designated as a quantification reference point without any explanation for the choice of the specific point. The Central Idaho Wilderness Act designated this forty-six mile segment from the mouth of the North Fork of the Salmon River to Corn Creek as a recreational river. This designation may affect the amount of water claimed.

The amounts stated in the table for the designated periods do not have any apparent relationship to the purposes of the Wild and Scenic Rivers Act. Nor is there any evidence that the amounts stated are the minimum amount, if any, necessary in terms of quantity, duration, and frequency to prevent defeat of the purposes for which the Central Idaho Wilderness Act designated this segment of the Salmon River as a recreational river within the Wild and Scenic Rivers System.

7. Present and future uses to which the water is or will be used: The present and future purposes of use are limited to the recreational river designation that Congress made for this forty-six mile segment of the Salmon River under the Central Idaho Wilderness Act.

8. Attach the legal description of the reservation, and maps showing the existing and proposed place of use: The place of use should be limited to the channel of the Main Salmon River and should not extend to the drainage basins tributary to the Main Salmon.

9. Remarks: The document entitled "Quantification Proceedings – General Notice of United States's Claims" contains a section entitled "General Remarks for All United States Claims," hereinafter the "General Remarks." The General Remarks restate certain legal allegations of the United States. None of the statements in the General Remarks constitute a remark that is appropriate for inclusion in any partial decree relating to these claims because the statements do not constitute "matters as are necessary for definition of the right, for clarification of any element of a right or for administration of the right by the director." *Idaho Code* § 42-1409(1)(l).

Should be: The purpose of use must be determined in accordance with the Wild and Scenic Rivers Act that designated this river segment as a part of the Wild and Scenic Rivers System.
8. ☒ **Attach the legal description of the reservation, and maps showing the existing and proposed place of use.**
Should be: The channel of the Middle Fork of the Salmon River as depicted on the map designated as Attachment A.
9. ☒ **Remarks:** Should be: None.

 - ☐ This water right should not exist.
 - ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S):

4a. Location of point of diversion: The inclusion of any quantification reference points in this element is improper because this water right describes an instream flow that does not include any points of diversion.

8. Attach the legal description of the reservation, and maps showing the existing and proposed place of use: The place of use should be limited to the channel of the Middle Fork of the Salmon River and should not extend to the drainage basins tributary to the Middle Fork of the Salmon.

9. Remarks: The document entitled "Quantification Proceedings – General Notice of United States's Claims" contains a section entitled "General Remarks for All United States Claims," hereinafter the "General Remarks." The General Remarks restate certain legal allegations of the United States. None of the statements in the General Remarks constitute a remark that is appropriate for inclusion in any partial decree relating to these claims because the statements do not constitute "matters as are necessary for definition of the right, for clarification of any element of a right or for administration of the right by the director." *Idaho Code* § 42-1409(1)(l).

D. I OBJECT TO THE FOLLOWING ELEMENTS AS RECOMMENDED IN THE DIRECTOR'S REPORT.

1. ☐ **Name and address**
Should be: _____
2. ☐ **Date of priority**
Should be: _____
3. ☐ **Source of water**
Should be: _____
- 4a. ☒ **Location of point of diversion**
Should be: Not applicable.
- 4b. ☐ **Description of diversion works: Instream flow**
Should be: _____
5. ☒ **Quantity claimed**
Should be: The minimum amount necessary to fulfill the purposes of the Wild and Scenic Rivers Act. *Potlatch Corp. v. United States*, 134 Idaho 912, 916 (2000).
6. ☐ **Total consumptive use claimed for present and future use is:**
Should be: _____
7. ☒ **Present and future uses to which the water is or will be used**
Should be: The purpose of use must be determined in accordance with the Wild and Scenic Rivers Act that designated this river segment as a part of the Wild and Scenic Rivers System.
8. ☒ **Attach the legal description of the reservation, and maps showing the existing and proposed place of use.**
Should be: The channel of the Middle Fork of the Salmon River as depicted on the map designated as Attachment A.
9. ☒ **Remarks:** Should be: None.
11. **I object because:**
 - ☐ This water right should not exist.
 - ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S):

4a. Location of point of diversion: The inclusion of any quantification reference points in this element is improper because this water right describes an instream flow that does not include any points of diversion.

5. Quantity claimed: The claimant describes the amounts claimed at the location designated as quantification reference points without any explanation for the choice of the specific points. The Wild and Scenic Rivers Act designated the Middle Fork of the Salmon River as a part of the Wild and Scenic Rivers System.

The amounts stated in the tables for the designated periods do not have any apparent relationship to the purposes of the Wild and Scenic Rivers Act. Nor is there any evidence that the amounts stated are the minimum amount, if any, necessary in terms of quantity, duration, and frequency to prevent the primary purposes of the Wild and Scenic Rivers Act from being defeated.

7. Present and future uses to which the water is or will be used: The present and future purposes of use are limited to the purposes for designation of the Middle Fork of the Salmon River in the Wild and Scenic Rivers Act.

8. Attach the legal description of the reservation, and maps showing the existing and proposed place of use: The place of use should be limited to the channel of the Middle Fork of the Salmon River and should not extend to the drainage basins tributary to the Middle Fork of the Salmon.

9. Remarks: The document entitled "Quantification Proceedings – General Notice of United States's Claims" contains a section entitled "General Remarks for All United States Claims," hereinafter the "General Remarks." The General Remarks restate certain legal allegations of the United States. None of the statements in the General Remarks constitute a remark that is appropriate for inclusion in any partial decree relating to these claims because the statements do not constitute "matters as are necessary for definition of the right, for clarification of any element of a right or for administration of the right by the director." *Idaho Code* § 42-1409(1)(l).
