7. ☐ **Purpose(s) of Use**

8. ☐ **Period of Year**

9. ☐ **Place of Use**
Should be: _____

10. **I object because:**

- ☐ This water right should not exist.
- ☐ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S): this water right should not be delivered in the normal fashion with this priority date. Historically, the water master has delivered this right only when Dry Creek was not contributing to Spring Creek, with the exception of times when there were very substantial floods. For this water to be diverted into Basin 21 when it should be contributing to the rights on Spring Creek would injure many rights down stream on Spring Creek, Camas Creek and eventually Mud Lake. There is no objection to the historical delivery practices of the Basin 31 water master.
