Dear Mr. Mahannah:

Please find enclosed a Standard Form 5/Amended Claim form for your water right, No. 47-04244. Attached to it is the description (recommendation) of your water right showing the changes made based upon our reinvestigation of the source/tributary relationship for the right.

Please review this document carefully. If the information contained in the Standard Form 5/Amended Claim form meets with your approval, please sign the first page where indicated, initial the recommendation print-out (the second page) and follow the instructions on the Certificate of Mailing page for filing the document with the SRBA Court. Be sure to keep a copy of the signed document for your records.

Because the court will set this subcase for another hearing soon, your prompt consideration in this matter would be greatly appreciated. Should you have any questions, please don't hesitate to contact me at 208-327-7925. Thank you for your cooperation.

STANDARD FORM 5
AMENDED CLAIM

For Domestic and Stockwater Rights

This form is used to report the stipulated elements of one "domestic and/or stockwater" right acquired under state law and/or one federal reserved water right and to amend the Notice of Claim. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be decreed as described per the attached Amended Claim. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.
