	)	(US/DOE/BPA)
Case No. 39576	)	
	)	SPECIAL MASTER REPORT

Findings of Fact

The Director of the Idaho Department of Water Resources filed his *Director's Report for Domestic and Stockwater, Reporting Area 22, Volume Six (IDWR Basin 85)* on March 19, 1999. The Director recommended the above 68 *de minimis* (.02 cfs) instream stockwater claims to the United States of America, Department of Energy, Bonneville Power Administration, Land Mgt Sec, MMLC, P.O. Box 3621, Portland, Oregon 97208-3621.

On September 17, 1999, Pickett Ranch & Sheep Company, Western Stockgrowers Association, Joe Tugaw, Michael and Gary Poulton, Karl, Jared, Scott and Bruce Bedke, Jerry Hoagland and Joyce Livestock Company (Objectors) filed *Objections* to the above claims, plus many more in Basins 67, 69, 77, 78, 79, 81, 82, 83, 84, 85 and 86. They all alleged the water rights should not exist.

On August 29, 2001, the Special Master entered an *Order Granting Motion to Withdraw Objections*. The Objectors sought to withdraw their *Objections* with the understanding that the 68 claims have been transferred to and are now the property of the State of Idaho. At a status conference on August 29, 2002, the parties and IDWR noted that the State has not yet filed notices of change of ownership with IDWR, they agreed the claims should be decreed to the United States and later transferred to the State through administrative proceedings before IDWR.

Conclusions of Law

The United States of America, Department of Energy, Bonneville Power Administration is entitled to partial decrees adjudicating water rights under the above 68 claims as described in the attached *Special Master Recommendations for Partial Decrees*.

DATED September 12, 2002.
