About 1960 my family and I began to use about two acres of ground between Conant Creek and Fall River at the confluence of those two streams in Fremont County. We dug a ditch to allow water to flood irrigate it. At that time the property, which we call "The Point" was owned by my wife's brother, Thomas Murdoch, who sold it to us in 1973.

We have used it as a picnic ground and recreation area since that time. We cut the weeds and grubbed the sagebrush and planted trees which we watered by carrying water in buckets from Fall River. We then purchased a gasoline operated pump and pumped the water to our trees. At about that time I purchased one acre foot of storage water in Fremont Madison Irrigation District from Angus Blanchard, believing that gave me the right to pump from the river. I later purchased another five acre feet of storage water from my cousin.

In 1987 we had Fall River Electric Coop bring power into the Point and had Hammond Plumbing put in an electric pump to pump water out of Conant Creek, which we were told was acceptable since there was no one else who owned property from our pump downstream to Fall River.

Enclosed are letters from my nephew, Darrell Murdoch, as well as from my daughter Robin Rivas, my daughter, Suzanne Hamilton, and her husband, Larry Hamilton, all of Ashton, telling their first recollections of watering the Point. I also enclose the original statement from Fall River Electric Coop showing the date they brought power in.

To Whom It May Concern:

This letter is to help establish water usage from Fall River and Conant Creek on the property known as Lyon's Point located at the confluence of those two waterways in the Farnum area west of Ashton.

I was 8 years old in 1961 when the property that we call The Point came into our family. I was baptized in Fall River that summer and we planted a garden that we watered by hand, hauling buckets up from the river. My Uncle Tom Murdoch also dug a ditch about that time that made it much easier to haul water than climbing down the slope into the river or creek.

Later, when I was in college, about the mid-70's, my dad Glade Lyon purchased a little gasoline-operated pump that allowed us to water some of the grass along with the trees. Several years after that Dad put in electricity and an electric pump which we are still using today to keep The Point watered.

Notwithstanding any other provision in this agreement, it is specifically understood and agreed that before Seller shall energize any facilities, Seller may require that Consumer deliver to the Seller a valid letter of credit or letter of guarantee, acceptable to Seller, by a responsible financing institution in behalf of Consumer, or cash deposit, guaranteeing Seller, in advance of the furnishing of services that all bills for the electric energy and minimum charges incurred by the provisions of this agreement, shall be paid by the fifteenth day of the month following the rendition of the bill by Seller, or on the next business day, if the fifteenth day of the month falls on a holiday, a Saturday, or Sunday. Failure to produce such letter shall be grounds for refusal on the part of Seller to furnish electric energy to Consumer.

3. Membership.

The Consumer shall become a member of the Seller prior to receiving electric service from the Seller, shall abide by the provisions of its Articles of Incorporation and By-Laws, shall pay the membership fee, and shall be bound by such statements of policy, rules and regulations as may from time to time be adopted by the Seller.

4. Continuity of Service.

The Seller shall use reasonable diligence to provide a constant and uninterrupted supply of electric power and energy hereunder. If the supply of electric power and energy shall fail or be interrupted, or become defective through act of God, governmental authority, action of the elements, public enemy, accident, strikes, labor trouble, required maintenance work, inability to secure right-of-way, or any other cause beyond the reasonable control of Seller, the Seller shall not be liable therefore or for damages caused thereby.

5. Right of Access.

Duly authorized representatives of the Seller shall be permitted to enter the Consumer's premises at all reasonable times in order to carry out the provisions hereof.

6. Term.

This agreement shall become effective on the date first above written and shall remain in effect until 10 years following the start of the initial billing period, and thereafter until terminated by either party giving to the other 2 months' notice in writing, PROVIDED HOWEVER, that if this agreement is terminated by the Consumer prior to 10 years after the start of the initial billing period hereunder, Consumer will pay to Seller a termination charge equal to the applicable "construction credit" \$ 2552.00 less net salvage value of said facilities.

7. Costs of Facilities to Provide Service.

(Use applicable alternatives)

Costs of constructing facilities to provide services to Consumer shall be governed by the provisions of Seller's "Line Extension Policy" (General Policy No. 402.1) a copy of which said Consumer acknowledges receipt of. Said policy may be amended from time to time by the Board of Directors of Seller.

(a) Construction Guarantee.

On or before the commencement of construction of facilities, the Consumer shall pay to the Seller the sum of \$ NA to guarantee that the Seller will recover the Seller's portion of the cost of facilities required to make service available to the Consumer. A portion of such guarantee shall be returnable each year, without interest, in the form of a credit on the Consumers bill for service in the amount of \$ NA per year, which annual credits shall continue until they total \$ NA.

No refunds shall be made to the Consumer of any portion of this guarantee remaining upon termination of this agreement.

(b) Contribution in Aid of Construction.

The Consumer shall pay to the Seller the sum of \$ 35.00 ^{per charge} as a contribution in aid of construction on account of the cost of facilities required to make service available to the Consumer on or before commencement of construction of such facilities. No refund shall be made to the Consumer of any portion of the contribution in aid of construction, pursuant to Seller's "Member Service and line Extension Policy".

(General Policy No. 402.1)

(c) Advance on Construction.

The Consumer shall pay to the Seller the sum of \$ NA as an advance on construction of facilities required to make service available to Consumer on or before commencement of construction of such facilities. Portions thereof may be refunded when additional line or consumers are added to these facilities, all pursuant to Seller's said "Member Service and Line Extension Policy". (General Policy No. 402.1)

8. Attorney's Fees.

Consumer agrees to pay all costs and reasonable attorneys' fees incurred by Seller in enforcing the provisions of this agreement and particularly in the collection of all sums charged by Seller for services rendered to Consumer.

To Whom It May Concern:

I would like to state that I know that my father Glade Lyon had a ditch on his property known as The Point. It is where Conant Creek falls into Fall River. I have memories of the ditch, including the first day they ran water down it. It was very exciting and we all cheered. It would have been in the summer of 1961. At that time I was 4 years old. My cousin Jan Atchley and I waded together in the ditch that day in our new red lacey panties. My cousins and siblings and I played and waded in the ditch. We carried buckets of water from the ditch. It ran parallel with Conant Creek.

Sincerely,

Robin Rivas

Furthermore, such discontinuance of service shall not relieve the Consumer of any of its obligations under this agreement. Once service has been discontinued, regardless of who might request service, Seller shall not be obligated to thereafter resume service to said real property until all bills for service hereunder, together

In April 1976 I moved to Ashton, Idaho and that same year I helped my Father-In-Law Glade Lyon set up and water his property south of Ashton on Fall River and Conant Creek off the Squirrel Road. I remember he purchased a 5 hp motor and pump and it worked pretty well. I know he used that pump until he put in electricity and an electric motor and pump.

Regarding the property on the East bank of Fall River and South of Conant Creek. Soon after my father obtained this property a portion of it was sold to Glade Lyon, the area where Conant Creek enters Fall River. My Father, Father in Law, and various relatives constructed two ditches the length of these properties and were used with various success for a few years. They were difficult to operate because the headgate on Conant Creek would wash out every spring. To the best of my recollection these events took place in the early 1960's.
