The exam was done on 8-19-2004 with Kris Kelly whose family farms this ground for claimant Peter Cannon.

Water is carried in the New Sweden Irrigation System & diverted at the Great Western headgate. Rediversion is at the S1/4 Sec 13, T1N R36E.

Entire farm is outlined in white on Aerial map. It appears that New Sweden shares apply to most of the farm and the acreage in the SW1/4 of Sec 14 T1N R36E (approx 15 acres) is the place of use for this carried right.

Kris Kelly can be contacted at 208-357-5807 or 313-3044.

Exam done by Harold Jours of Water Rights Contracting Services.
