

9/4/2003

25-4054

Per claimant, before Teton flood this stationary gamma pump irrigated the entire place of use described in 25-4037. However, after flood this pump could only irrigate the ~~the~~ field as shown on attached POU maps.

Ownership info correct. Claimant given EOP brochure.

Long Island Canal shares supplemental to this WR.

Talked w/ Dallas re: EOP. He said that he thought canal water had been transferred to this pump when pump was installed. He also pumps canal shares from this pump. Not sure if its Long Island or Independent.
