Met with Ray + Ryan Clement at their father's former dwelling. There are 2 homes on the property, the main home, and a caretaker's home. There are 3 wells and 4 pumps. Gave them a change of ownership form and an EOP brochure. Map was corrected.

There is a sandpoint well in the basement of the main house which is used for domestic purposes.

East of the main home, there is a 15 HP vertical turbine pump that runs open discharge to flood irrigate portion of yard not covered by sprinkler system.

The well near the caretaker's house contains 2 pumps, a 1 HP for the house and a 3 or 5 HP pump to irrigate a park and some lawn via underground sprinkler system.
