RE: 25-13761

I talked with Jerry Simonson, manager at Jefferson Hills this morning regarding his notice of error reply. I explained that I would remove Virginia Kinghorn from the contact list since she is no longer associated with Jefferson Hills. I also explained that I would not be able to change his recommendation regarding the additional uses of water because I did not have sufficient evidence in the file to do so. I explained that he had licensed right 25-7456 to cover the uses he was concerned about. He seemed satisfied.

6/3/2003

Jerry Simonsen, manager at Jefferson Hills called today regarding EOP letter which was recently sent. He said that there were 3 wells on the property, but now there are only 2. License 25-7460 is used for irrigating the golf course and license 25-7456 is used for the clubhouse.

Jerry believes that this claim (25-13761) is for a domestic well that was on the property but has since been "covered over." He believes it was last used over 10 years ago. He said at one time they were considering renting out the house.

25-7456 is for clubhouse and this claim is for proshop. Golf course built in 1970 per internet search.
