		36-00005B and 36-00019B

I. FINDINGS OF FACT

A *Special Master's Report and Recommendation* was issued in subcases 36-00003B, 36-00005B and 36-00019B on December 18, 2002. The SRBA District Court received correspondence from Josphine Beeman on January 24, 2003, stating that a few clerical errors had been made to the recommendations in the above listed subcases. Those mistakes being the language in the other provisions necessary in 36-00019B the word "required" should be replaced with "require," in 36-00005B the language in purpose of use the word "date" should be replaced with "dates" and in 36-00003B the place of use for Irrigation in T07S R 13E S27 SWNW read 23 acres and should have read 24 acres and T07S R13E S28 Lot 5 NWSE read 23 acres and should read 22 acres, and the T07S R13E S28 NESE section in Fish Propagation should have been eliminated.

After review of the files this Special Master finds that the clerical errors were made by the SRBA District Court. However, the errors are minor changes and do not require additional time to file motions to alter or amend.

II. CONCLUSIONS OF LAW

Therefore, based on the file and record herein and pursuant to the *Standard Form 5*, IT IS RECOMMENDED that water right claims 36-00003B, 36-00005B and 36-00019B be decreed with the elements as set forth in the attached *Amended Recommendations for Partial Decrees Pursuant to I.R.C.P. 54(b)*.

DATED: January 27, 2003.
